AYER'S CATHARTIC PILLS,

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach and Breath, Erysipelas, Headache, Piles, Rheumatism, Eruptions, and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill and Purifying the Blood, are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disorded organ into action; and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most skilful physicians, most eminent clergymen, and our best citizens, send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

The Future of Strawberry Culture.

The experience of the season just past has convinced strawberry-growers, at least those in the Northern States, that they must give up the cultivation altogether or take measures to be independent of the weather. Another such season as the one just closed would bring disaster, if not ruin, to hundreds who have capital invested in strawberries and other small fruits, as well as in baskets and other accessories for taking the crop to market. The only way in which the strawberry grower can be fairly sure of a crop one year with another is to irrigate. One of the largest growers in the vicinity of New York recently told us that the amount that he lost by this year's failure of the crop would more than pay for permanent irrigating improvements. Like a wise man, he goes at once to work to provide a supply of water that will render him, so far as that goes, quite independent of rains.—This is what strawberry cultivators must make up their minds to do if they expect anything like certain returns for their labors. In a Spring like the last, water for irrigation will decide the question between a profitable crop and a total failure, and in ordinary seasons, when there is so much rain that the plants do not really suffer from drouth, we feel sure that the advantage derived from the application of water just at the time it is needed will be such as to pay a handsome return upon the investment. In many localities the preparations for irrigation need be but slight—a dam and a few water-courses being all that are required. In other cases water must be pumped by windmills into a reservoir. Even in the most difficult cases the outlay will not be very large. It should be recollected that no half-way measures will answer; the ground must have a thorough soaking. The watering had better not be undertaken at all if it is to be only a mere wetting of the surface.

The above, copied from the American Agriculturist, is a very apropos introduction to the following from the California Farmer on "Irrigation of Gardens and Orchards."

"The subject of irrigation is now attracting more attention than ever before, and irrigation, too, of a rational kind. The constant flooding the surface of the earth in hot weather has been proved to be very injurious in many ways, not only to trees, plants, and vines, but, if near the dwelling, has been the producing cause of sickness of many kinds from the malaria arising from it; besides, the surface of the earth, unless it is cultivated often after the flooding, becomes baked hard, and more injury than good, in reality, is the result of flooding the surface as the plan of irrigation.

For an orchard or a vineyard, or a garden, a very much better plan is the underground system, be the use of small composition pipes with outlet holes at given distances. By this means the water filters through these apertures in just the quantity required from any given distance, and thus feeds the roots below the surface, while it keeps the whole soil moist and without too great a quantity, and also no baking the surface as the water is fed from below.

There is no better way possible than underground irrigation by means of the composition or cement pipes. These pipes are sold very low, the whole cost being much less than any other plan of irrigation, while the appearance of the orchard or garden remains with a smooth cultivated surface, instead of being broken up into a series of ridges or furrows for the conveyance of the water above; by this means all the exhalations from the surface of fogs, damps, mosquitoes, &c., produced by standing water is wholly avoided.

This system has been tried successfully, and is now adopted by many persons, and we commend those who are planning for irrigating their grounds to call and investigate this plan by all means."

"Crib Bite."

This annoying habit is the result of dyspepsia. It is neither more nor less than the horse's way of "belching wind." The poor quadrupeds stomach is weak; his food does not digest and pass on into the intestines, but lies and ferments. In the process of fermentation gas is generated, which distends the stomach till the sense of fulness becomes a positive pain, under these circumstances the animal instinctively seek relief by discharging the gas. But he is compelled to do this under difficulties. A horse never vomits. He can't do it. The entrance to his stomach is closed by a valve which prevents the contents of the stomach being returned by the oesophagus or "gullet." But by a peculiar disposition of the jaws and muscles of the throat, and by distending the lungs and straightening out the neck, he can manage to open the valve sufficiently to allow the gas to escape and give him temporary relief. It is however only temporary, and the occurrence of the uneasiness constrains him to resort again to the above expedient. That the practice may result in a confirmed habit is doubtless true, and the animal may keep on "sucking wind" when his food digests readily enough.

But oftener the habit continues because the disease continues. Dyspepsia once confirmed, is slow to give way, and the vice holds on because the indigestion does. The horse has a peculiar stomach. Considering his size it is very small, and its capacity for distension is quite limited. For his work the horse needs lung room, and his viscera are arranged with a view to that. His nutriment is therefore stowed away in a small space, and in a healthy state is soon disposed of. If then the stomach be weak and overloaded, the breathing apparatus is at once embarrassed, irritation and congestion ensue, and the animal becomes distressed; of course he will use what means he can to get relief.

It will be seen therefore that no mechanical means to stop the "crib biting" will serve to effect a cure, unless the indigestion be treated at the same time; and in this the apothecary is of little use. The grocer is your better friend. Get of him salt enough to supply the animal what he will need. You can also get of him what soda or saleratus will serve to neutralize the excessive acidity of the fermented food. This you can dissolve in his water, which I prefer, or you can sprinkle on his food. Aside from these let drugs severely alone. Give your horse regular meals, and especially, regular exercise. Do not let him stand in his stall a week without change, and then drive him forty or fifty miles in a day.—Do not give him drink in close connection with his food, and do not feed him when he is heated from hard exercise. Keep him warm and well curried. These bits of attention are worth more than all the Condition Powders which the apothecaries can make. By such means cure the dyspepsia and the "crib bite" will cure itself. At all events, you must cure the dyspepsia before your throat-straps, &c., will do any good.

The Driver's Story.

From the New York Evening Post.

"Ah, sir, this is going to be a hard winter," said a great, burly car driver to us, the other evening; "and I saw, yesterday, what such as you don't see very often, and hardly when it's told to ye. One of the men that drove on this line nigh three years sent his little gal to ask me to come see him, and I laid off last evening, and went.

"Now I heard how he was sick with consumption, but I didn't know how sick until I got there.

"As sure as I live, sir, there was that fellow what one year ago was as strong and hearty a young man as you ever saw, with his legs no bigger than my wrist—and him a lyin' on the floor, and heavin' and chokin' all the day and night.

"He told me hadn't sent for me til he had to, and, on looking round, sir, I saw there wasn't any furniture left; and altho' a year ago he had his little room fitted up comfortable-like, he had sold even the straw in his tick, and was a lyin' on the floor. 'I wouldn't care to live, Jim,' said he (speakin' very hoarse and troublesome-like); 'but for my poor wife and children; for altho' I'm only in their way, I like to see 'em round, and I shall not trouble 'em much longer.' And here he looked at his wife and smiled when she cum up and, takin' hold of his hand, told him not to talk like that, but to pluck up hope for her sake and the little ones.

"By and by, after looking at her and then round the room at the children, his lip commenced to tremble and the tears to fill his eyes, in spite of his tryin' to smile; and, altho' I think I'm as hard-hearted as any man, I couldn't stand it, and just bust out cryin'.

"Well, it seems he hadn't had anything to eat that day, so I gave him two dollars, (all I had) and sent for some bread, and a bundle of straw, and, best of all for him, I do believe, I got his babies a stick of candy and a whistle, and left 'em almost happy. My old woman has been over, to-day, to take 'em an old bedstead we ain't usin', and I've collected eight dollars for 'em from the drivers, and we're thinkin' of getting up a ball, hoping to make enough to send him to the hospital and give his wife a start. So they're not so bad off now as they might be. But there's lots just like 'em, sir, lots just like 'em, and there's goin' to be more afore the winter's through.

"Hold on till I slow up a bit, sir. There! Good night, sir; good night." And we walked away pondering on the terrible words of that kind-hearted man: "There's lots just like 'em."

AYER'S CATHARTIC PILLS,

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach and Breath, Erysipelas, Headache, Piles, Rheumatism, Eruptions, and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms.

Gout, Neuralgia, as a Dinner Pill and Purifying the Blood, are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action; and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most skilful physicians, most eminent clergymen, and our best citizens, send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

The Future of Strawberry Culture.

The experience of the season just past has convinced strawberry-growers, at least those in the Northern States, that they must give up the cultivation altogether or take measures to be independent of the weather. Another such season as the one just closed would bring disaster, if not ruin, to hundreds who have capital invested in strawberries and other small fruits, as well as in baskets and other accessories for taking the crop to market. The only way in which the strawberry grower can be fairly sure of a crop one year with another is to irrigate. One of the largest growers in the vicinity of New York recently told us that the amount that he lost by this year's failure of the crop would more than pay for permanent irrigating improvements. Like a wise man, he goes at once to work to provide a supply of water that will render him, so far as that goes, quite independent of rains.—This is what strawberry cultivators must make up their minds to do if they expect anything like certain returns for their labors. In a Spring like the last, water for irrigation will decide the question between a profitable crop and a total failure, and in ordinary seasons, when there is so much rain that the plants do not really suffer from drouth, we feel sure that the advantage derived from the application of water just at the time it is needed will be such as to pay a handsome return upon the investment. In many localities the preparations for irrigation need be but slight—a dam and a few water-courses being all that are required. In other cases water must be pumped by windmills into a reservoir. Even in the most difficult cases the outlay will not be very large. It should be recollected that no half-way measures will answer; the ground must have a thorough soaking. The watering had better not be undertaken at all if it is to be only a mere wetting of the surface.

The above, copied from the American Agriculturist, is a very apropos introduction to the following from the California Farmer on "Irrigation of Gardens and Orchards."

"The subject of irrigation is now attracting more attention than ever before, and irrigation, too, of a rational kind. The constant flooding the surface of the earth in hot weather has been proved to be very injurious in many ways, not only to trees, plants, and vines, but, if near the dwelling, has been the producing cause of sickness of many kinds from the malaria arising from it; besides, the surface of the earth, unless it is cultivated often after the flooding, becomes baked hard, and more injury than good, in reality, is the result of flooding the surface as the plan of irrigation.

For an orchard or a vineyard, or a garden, a very much better plan is the underground system, be the use of small composition pipes with outlet holes at given distances. By this means the water filters through these apertures in just the quantity required from any given distance, and thus feeds the roots below the surface, while it keeps the whole soil moist and without too great a quantity, and also no baking the surface as the water is fed from below.

There is no better way possible than underground irrigation by means of the composition or cement pipes. These pipes are sold very low, the whole cost being much less than any other plan of irrigation, while the appearance of the orchard or garden remains with a smooth cultivated surface, instead of being broken up into a series of ridges or furrows for the conveyance of the water above; by this means all the exhalations from the surface of fogs, damps, mosquitoes, &c., produced by standing water is wholly avoided.

This system has been tried successfully, and is now adopted by many persons, and we commend those who are planning for irrigating their grounds to call and investigate this plan by all means."

It will be seen therefore that no mechanical means to stop the "crib biting" will serve to effect a cure, unless the indigestion be treated at the same time; and in this the apothecary is of little use. The grocer is your better friend. Get of him salt enough to supply the animal what he will need. You can also get of him what soda or saleratus will serve to neutralize the excessive acidity of the fermented food. This you can dissolve in his water, which I prefer, or you can sprinkle on his food. Aside from these let drugs severely alone. Give your horse regular meals, and especially, regular exercise. Do not let him stand in his stall a week without change, and then drive him forty or fifty miles in a day.—Do not give him drink in close connection with his food, and do not feed him when he is heated from hard exercise. Keep him warm and well curried. These bits of attention are worth more than all the Condition Powders which the apothecaries can make. By such means cure the dyspepsia and the "crib bite" will cure itself. At all events, you must cure the dyspepsia before your throat-straps, &c., will do any good.

The Driver's Story.

From the New York Evening Post.

"Ah, sir, this is going to be a hard winter," said a great, burly car driver to us, the other evening; "and I saw, yesterday, what such as you don't see very often, and hardly when it's told to ye. One of the men that drove on this line nigh three years sent his little gal to ask me to come see him, and I laid off last evening, and went.

"Now I heard how he was sick with consumption, but I didn't know how sick until I got there.

"As sure as I live, sir, there was that fellow what one year ago was as strong and hearty a young man as you ever saw, with his legs no bigger than my wrist—and him a lyin' on the floor, and heavin' and chokin' all the day and night.

"He told me hadn't sent for me til he had to, and, on looking round, sir, I saw there wasn't any furniture left; and altho' a year ago he had his little room fitted up comfortable-like, he had sold even the straw in his tick, and was a lyin' on the floor. 'I wouldn't care to live, Jim,' said he (speakin' very hoarse and troublesome-like); 'but for my poor wife and children; for altho' I'm only in their way, I like to see 'em round, and I shall not trouble 'em much longer.' And here he looked at his wife and smiled when she cum up and, takin' hold of his hand, told him not to talk like that, but to pluck up hope for her sake and the little ones.

"By and by, after looking at her and then round the room at the children, his lip commenced to tremble and the tears to fill his eyes, in spite of his tryin' to smile; and, altho' I think I'm as hard-hearted as any man, I couldn't stand it, and just bust out cryin'.

"Well, it seems he hadn't had anything to eat that day, so I gave him two dollars, (all I had) and sent for some bread, and a bundle of straw, and, best of all for him, I do believe, I got his babies a stick of candy and a whistle, and left 'em almost happy. My old woman has been over, to-day, to take 'em an old bedstead we ain't usin', and I've collected eight dollars for 'em from the drivers, and we're thinkin' of getting up a ball, hoping to make enough to send him to the hospital and give his wife a start. So they're not so bad off now as they might be. But there's lots just like 'em, sir, lots just like 'em, and there's goin' to be more afore the winter's through.

"Hold on till I slow up a bit, sir. There! Good night, sir; good night." And we walked away pondering on the terrible words of that kind-hearted man: "There's lots just like 'em."

"Crib Bite."

This annoying habit is the result of dyspepsia. It is neither more nor less than the horse's way of "belching wind." The poor quadrupeds stomach is weak; his food does not digest and pass on into the intestines, but lies and ferments. In the process of fermentation gas is generated, which distends the stomach till the sense of fulness becomes a positive pain, under these circumstances the animal instinctively seek relief by discharging the gas. But he is compelled to do this under difficulties. A horse never vomits. He can't do it. The entrance to his stomach is closed by a valve which prevents the contents of the stomach being returned by the oesophagus or "gullet." But by a peculiar disposition of the jaws and muscles of the throat, and by distending the lungs and straightening out the neck, he can manage to open the valve sufficiently to allow the gas to escape and give him temporary relief. It is however only temporary, and the occurrence of the uneasiness constrains him to resort again to the above expedient. That the practice may result in a confirmed habit is doubtless true, and the animal may keep on "sucking wind" when his food digests readily enough.

But oftener the habit continues because the disease continues. Dyspepsia once confirmed, is slow to give way, and the vice holds on because the indigestion does. The horse has a peculiar stomach. Considering his size it is very small, and its capacity for distension is quite limited. For his work the horse needs lung room, and his viscera are arranged with a view to that. His nutriment is therefore stowed away in a small space, and in a healthy state is soon disposed of. If then the stomach be weak and overloaded, the breathing apparatus is at once embarrassed, irritation and congestion ensue, and the animal becomes distressed; of course he will use what means he can to get relief.

Kingston, Saturday Morning, Nov. 22.

Mr. Gallagher, of the Brooklyn Plasterer's Lodge, told an interviewer that this was only an "imaginary panic." That is precisely what makes it a panic, Mr. G. All real fights get their strongest impulses from the tremendous power of the imagination. Cut that out of human nature and you deduct nine-tenths from the sum of mortal trouble and sorrow. "Canst thou minister to a mind diseased?" If not, then panics will recur to the end of time.

During the prevalence of the hard times consequent upon the panic all who are situ-tuated so as to be able to help others who need help many remember to advantage the fact that organized charities can do but a small part of the work to be done. There will be cases in which the suffering parties are proud as yourself, and who would almost starve before making application for relief to any official whatever. Further, remember that those who oftenest and most clamorously demand help are least worthy of it. Again, systematic charity always breeds systematic beggary, and often makes professional beggars of those who never meant to be. Seek out cases for yourself; assist without wounding, and many will bless you not only for material succor, but for the delicacy with which it was rendered.

Broke Jail.

The authorities of the Tombs prison have been seized with a spasm of virtuous indignation. It becomes them well. Few things are finer in their way than the glow of manly wrath which suffuses the cheek of honor and fidelity when some sharp rascality has temporarily defeated its set purpose to be good and true. Such is the dramatic *pose* assumed by the warder angels of the Center street hotel at this blessed minute. Sharkey, a condemned murderer, has escaped. He tried that little venture in a woman's clothes, and being cooler and more feminine by nature than Jeff. Davis, he succeded. A woman helped him? To be sure she did. In fact two of those omniscient helpmeets meted out help to him. So he passed the "heavy iron doors," clad in mourning, with sorrowing step and slow. Now everybody, from the Commissioners of Correction down through District Attorney Phelps to the grim Cerberus who takes the tickets to that criminal menagerie, cry out in chorus, "He never could have got away without the assistance of a keeper." Indeed! And yet we are told that the keepers are never examined before they are employed. For all the authorities know the custodians may be worse than the gentlemen behind the gratings. How astonishing that Sharkey should escape. It is almost as good a joke as the Stokes trial.

Castelar in Difficulty.

Our controversy with Spain relative to the capture of the Virginius and the execution of a majority of her passengers and crew continues to engross public attention. On account of the numerous conflicting stories and reports more or less credible, some of which vitally affect the original view popularly taken of the affair, it is quite impossible to go beyond a guess as to ultimate results. One thing, however, is tolerably sure; that no matter what the express nature of the demand which our government may make upon Madrid may be, it is evident the demand will be greater than it is in the power of Spain at present to concede. Castelar is fettered hand and foot by home public opinion. That being the case any satisfaction commensurate with the gravity of the situation must be exacted by force of our own army and navy. Such action on the part of the United States means nothing less than war. It is just within the region of possibility that something unexpected may occur to forestall so undesirable a catastrophe; but as the indications point to-day it is hard to predict what that something will be.

The Spaniards as a people are either tyrants themselves or are morally and intellectually debauched by the tyranny of others. They lack the precise requisite to an amicable adjustment of such an *imbroglio* as this; an ability to feel themselves in the wrong and a willingness to make material sacrifices for the sake of a principle. A nation which can delight its inmost soul with the brutalities of a bull-fight in the present century of the Christian era has not, as a whole, the moral sense to form a respectable and manageable member of the family of civilization. President Castelar, as we have frequently before taken pleasure in saying in these columns, belongs to the few leaders of a movement which will finally create a new Spain. But the heaven will require some scores and maybe hundreds of years to work before that nation can be trusted to preserve the peace at its own expense. Meanwhile it is to be increasingly regretted that a cargo of human beings so lawless and contemptible as was that of the Virginius should have involved us in so serious a dispute.

The Snake in the Cut Glass.

Rev. Dr. Tiffany, of the Metropolitan M. E. Church, Washington, said a little while ago that, having called upon President Grant, he (the Doctor) was delighted to find that no wine was ever offered to guests at the table of the White House; and also that wine had been generally excluded from fashionable society at the capital in connection with balls, parties and *routs*. Our cold-water sympathizers were warmed several degrees by the Reverend Doctor's announcement and we were led to anticipate a highly profitable and sober session of Congress when that naturally convivial and volatile body should meet next month. Now that the excellent example of Colfax is partially forgotten and altogether removed from the too peccable Senators and Members and the serene smile of his unassailable virtue eclipsed by the clouds of distance and vilification, it is pressingly important that either his loss be made whole by some other truly good man, or temptations be reduced. This latter, if we may credit the Doctor, has been most happily accomplished. In the light of the worthy pastor's rose-colored statement does not the following picture of the way society goes it in Washington look a little queer? The extract is from the advance sheets of Lippincott's Magazine. The central figure is that of a young lady belonging to the highest circles. Gaze upon it and note how much this little picture resembles those Dr. Lord gives us in "The Old Roman World." You will remember Baie and the flush times of the Cæsarian regency:

"You have your choice of the frozen article, or of that claret concoction, to hold whose glowing ruby a bowl has been hollowed in the ice itself, or of the champagne punch, where to every litre of the champagne a litre of brandy, a litre of red rum, a litre of green tea are given, and where you see a flushed and fevered damsel dipping the ladle and tossing off her jorum as coolly as though she had not had her three wines at dinner that day, and had not, in half the houses of her dozen morning calls, sipped her sherry or set down her little punch-glass empty of its delicious mixture of old spirits and fermenting fruit-juices. Perhaps that sight sets you to thinking. You may have been attracted earlier in the night by her delicate toilette and her face pure as pearl; you saw her later, warm from the dance, eating and drinking in the supper-room; then her partner's arm was around her waist, her head was on his shoulder, and she was plunging into the German, whirling to maddening measures, presently caught in a new embrace, flying from that man's embraces to another's, growing wild with the abandon of the figure, hair flying, dress disordered, powder-caked face burning, till, pausing an instant for the champagne in a servant's hands, your girl with the face as pure as a pearl seemed nothing but a bacchante."

Is there not a faint chance that Dr. Tiffany sees only the sober side of things?

Mr. Brodhead's New Champion.

On Thursday evening, as reported in our issue of Friday, Mr. Wm. H. Romeyn went before the Board of Supervisors and asked to be heard on the Brodhead case. Permission having been granted him he proceeded to inform the Board that there had been gross mismanagement of the case for two years, and that the Board of 1871 was inadequate to the crisis. The first thought that will naturally occur to the taxpayers is, if Mr. Romeyn has seen that for two years there has been gross mismanagement of the case why hasn't he said so upon some occasion during that time in the paper he edits and which was issued 204 times during that interval? As a public journalist it was clearly his duty to point out any mismanagement. The second thought is, that during a year and a quarter of that two years the case was in the hands of Schoonmaker and Cooper, who refused to submit to the least control or direction of the Supervisors and could only be dealt with by a square vote deposing them. They pursued their own plan, refused to be guided or controlled, and after being deposed they cling to the case by every legal subterfuge possible.—The Supervisors have practically had no control of their case for two years, as during the period of Mr. Cantine's attorneyship the obstinacy of Schoonmaker and Cooper has kept the Supervisors from getting at their case. Clearly then the mismanagement has been that of Schoonmaker and Cooper, and yet Mr. Romeyn says they have been disgraced though they conscientiously performed their duty. Mr. Romeyn's point then is, that the case has been mismanaged, but the men who have mismanaged it have been unjustly disgraced, and should be paid heavily.

Another point made by Mr. Romeyn is, that the county is liable for heavy costs in litigation. So far there have been no costs except those made by the men he champions, Messrs. Marius Schoonmaker and James M. Cooper, either in their mismanagement of the case, or by the necessity of incurring cost they have put the county to in their efforts to resist their removal.

Another point made by Mr. Romeyn is, that the assets of Brodhead should have been taken. For the county of Ulster to establish the principle that its retiring Treasurers can pay it in cats and dogs instead of money, would have been suicidal and offered a premium for defalcations. But even if the principle were declared a good one Mr. Brodhead, beyond the securities turned into cash, offered no assets of any considerable amount. To attack Mr. Coykendall for refusing to take anything but cash is to condemn him for refusing to violate the law, which did not permit him to take anything else. And when Mr. Romeyn further complains because Mr. Coykendall paid the county interest on a loan, he puts himself in the position of objecting to a Treasurer receiving money upon a bond for $550,000 signed by twelve gentlemen each worth $75,000, and paying interest therefor to the amount of $10,000 and turning over the amount in cash, while he extols another who gave the county the slimmest possible security, paid it no interest, demands percentage, fees, lost bonds, &c., &c., to the amount of more than fifty thousand dollars. Coykendall he considers a scoundrel and should be prosecuted, though he has served without pay, and returned every cent promptly upon retiring, while he thinks Brodhead is a saint and shouldn't be prosecuted at all for anything, though he has done just the opposite.

Mr. Romeyn further objects to the purchase of $83,000 of Rondout & Oswego Railroad bonds at 70 by Thomas Cornell, and claims they should have been taken by Treasurer Coykendall at par, and that there has been a loss of $24,900 to the county by the transaction. The bonds were offered at auction a few days after, and there was no bid above 70; there has no sale above that rate been made public since that time; and to-day they can be bought by the hundred thousand at 50 cents, and probably at a less figure. So that if the county had taken that $83,000 it would have lost 50 cents on the dollar, or $41,500. Mr. Cornell's offer to Litchfield at par was made on a proposition to retire the first mortgage in order to issue a new one at $30,000 per mile. Of course any holder would have asked par upon such a proposition. But there never was such a market rate, and Mr. Cornell never received such a price, and never will; and Mr. Romeyn can't have the least idea they are worth any such price.

Mr. Romeyn's recommendation to settle with Brodhead on the basis of Referee Scott's decision is ludicrously out of time. Before The Freeman procured the testimony and showed how the case had been managed by the Board's attornies such a proposition might have been received by some, but there isn't a corporal's guard among the taxpayers who would listen to such a thing now.

So with the proposition to pay Marius Schoonmaker and Cooper heavy fees. We understand Mr. R. to ask that they have $15,000. It will not be given them unless they win it in the suit.

There is nothing else worthy of note in the harangue save the position of its author. His sympathy with Brodhead has been no secret to individuals, but now he has publicly committed himself to him just as the entire public are united in opinion as to his case. It is as if a metropolitan newspaper on the day before Tweed's conviction should have suddenly proclaimed him a saint and his prosecutors scoundrels. Mr. Romeyn's attempt to commit the Republican party, of which his paper claims to be an organ, to the support of the decaying fortunes of the Ring will of course be repudiated by the leaders of the party, as they have no desire to follow Mr. Romeyn's example and commit political suicide.

CURRENT TOPICS.

—The Second Adventists won't give it up. They are still waiting for the grand finale.—It's too bad they were disappointed.

—Two thousand dollars is offered for Sharkey's capture, dead or alive. But how much cheaper it would have been to have kept an eye on him while they had him.

—Tweed to the people in 1871—"What are you going to do about it?" The people to Tweed in 1873—"What are *you* going to do about it?"

—Gen. Butler is very sensible on the Cuban question. Summed up his advice is "Be sure you're right, then go ahead—and if it is necessary to capture Cuba to get justice, why, we must capture her."

—It seems Tweed isn't kept in jail, as he should be, since his conviction, but is allowed to run about very much as he pleases. Has the fact that Sheriff Brennan was one of his cronies in his palmy days anything to do with it?

—Well, shades of William Penn! if here isn't a nice go! A revolution is proposed among the Quakers, and it is proposed to do away with the "thee" and "thou" of their conversation and the peculiar style of clothing in vogue among them and adopt certain other "outside peculiarities." Can it be that Grant's Indian policy has had anything to do with transmogrifying the broadbrims?

—It is the "general impression," we are told, of the congressmen now in Washington, that the grab is not going to be repealed. Of course, they say, propositions will be brought forward, and perhaps speeches made for buncombe; but talking about doing isn't doing it. We strongly suspect their "impression" is correct, too.

—The Chicago Times sent "interviewers" to six leading Democrats of Indiana to obtain their opinions on political affairs. The six were Thomas A. Hendricks, William S. Holman, Joseph E. McDonald, Michael C. Kerr, Daniel W. Voorhees and Elijah S. Alvord.—They all agreed that the Democratic party must retain its old name, though its platform must be "liberalized." The Times laughs at this as an inconsistency.

—A proof of the effect of the sensationalism of the New York Herald is seen in the fact that its Spanish special dispatches are looked upon with much distrust. There's too much flavor of Herald "intellectual department" cookery about them. And even if all they represent be true it will need confirmation from other sources before people will believe it. If the Spanish Minister had insulted Gen. Sickles our government would probably know it quite as soon as the Herald.

—The report of the Internal Revenue Commissioner, on the whole, is encouraging. It shows that the receipts for the last fiscal year exceeded the estimate by over four millions of dollars, and that, notwithstanding the reduction in taxes, there has been an actual increase of over two millions in the receipts from all sources relating to spirits. The retrenchment in the matter of superfluous assessors and assistant assessors, in figures, proves to be a saving of over a million of dollars, while the collection business has been equally as well attended to as under the old plan.

—It takes a western paper for outright vigorousness of expression. Here is the St. James, Minn., Herald, commenting in characteristic style: "The skunks say they have the county seat, and St. James and all the railroads this side of (a very torrid place) have not money enough to take it away from them. Well, we don't know how that is, but we hardly think there are *votes* enough this side of the infernal regions to beat Madelia. A town of only 813 inhabitants polling 799 votes; just think of it! Don't it beat the devil?"

—The wedding cake of a couple recently married weighed forty pounds, and was in the form of a three-story brown-stone front, with a sugar bride and bridegroom coming out of the front door.

—The London Court Journal recommends that the impenetrable jungle of the Gold Coast be cleared away by fires, which would dislodge the Ashantees and drive off the malaria.

—Bishop Hennessy of Iowa has prohibited dancing at Catholic fairs and festivals in his diocese, stating that hereafter churches will be built without dancing.

—A smart little boy in New Orleans was reproved by his mother for telling a fib. He insisted it was only in fun, but his pious mother told him he must ask Divine pardon. So the little boy kneeled down and said: "Oh, Lord, forgive me. I wouldn't have done it, only I thought you could take a joke."

—Dio Lewis now tells "our girls" that if they want to learn to walk well they should "walk an hour a day, with a weight—say a bag of beans—upon their heads." A few days ago the Doctor advised ladies to eat beans to improve their complexion. We begin to suspect that he belongs to a bean "ring," and is trying to bull the bean market.

—A water-spout on Lake Erie was recently seen from the summit of Little Mountain, near Cleveland. Three attempts at mounting were made; the first broke before reaching the clouds, the second was a complete spout, the third broke up in a dense mist.

—The editor of the Watchman's Cry, at Meriden, Ct., the organ of the Adventists on Terry Island, has resumed his duties, and though disappointed that the world did not come to an end on the 5th as predicted, has hopes that "ere another paper can be issued, all will meet in the Immortal Kingdom."

—A fiend in human shape crawled into David Stewart's livery stable, in San Francisco, on the night of the 31st ult., and poisoned all the horses in the establishment, thirty-three head in all. A number have died from the effects of the poison, and few are expected to recover.

—The prairies of northwestern Iowa have been swept by fire, and many settlers have lost their grain, hay, and a part or all of their stock. The fire originated in Kossuth county, where a farmer ignited the stubble to clear off his ground. The flames extended to the rank growth of dry grass beyond, and spread thro' Kossuth, Hancock, and Winnebago counties.

—The Utica Herald says that Hon. Thomas G. Alvord has concluded negotiations for the last piece of land for right of way for the new Central railroad tracks around Syracuse, completed the entire purchase without a single law suit, and on terms satisfactory to the owners and the company.

—A new life-boat, constructed entirely of cork and cane, was recently tried in Liverpool, and the results are said to have been very satisfactory. The advantages claimed for it are that it weighs only one-third as much as the boats constructed out of ordinary materials; its strength and elasticity are such that it cannot be broken by rough usage; it is self-emptying, and cannot be capsized in any sea; it can be launched without the aid of davits and tackle, and it is less costly than any other so-called life-boat.

A Haunted Locomotive.

A locomotive that is possessed of a devil is the sensation at South Manchester, Conn. The engine is called the "Pioneer," formerly the Canonchet, and belongs to the Hartford, Providence & Fishkill Railroad. She was sold to another road recently, but owing to some misunderstanding was never delivered, and to get her out of the way the company sent her from Hartford to South Manchester a week or two ago, to be housed in the engine house there. She behaved herself like a well-bred engine the first two nights, but on the third the watchman heard strange noises unlike anything he ever heard before. This continued every night, and was heard by his brother, who came to keep him company in the uncanny place. Then the story got abroad that there was a haunted engine at the shop, and believers and unbelievers began to flock around. The noise continued to be audible. There was rappings now in the fire box, now in the boiler, and anon in the smoke-stack, as though some person inside was striking the iron with a muffled stick, and a hollow and dismal reverberation followed each blow. The most careful and thorough examination failed to disclose any trickery or the possibility of any, and the impudent spirit would keep up the racket even while the scrutiny was going on. People go to the engine house and stay nights to hear the manifestations, and it is related that one young man who was making unseemingly jests about the ghosts suddenly grew deathly pale and fell in a swoon. When he recovered he said he saw a ghostly figure glide out of the engine and point its bony finger at him. There are divers theories to account for the business. A gentleman from Pittsburgh, who knows all about iron and locomotives, says it is the molecular action of the iron striving to return from the artificial fibrous state. The believers in the spirit theory floor him at once, however, by asking him why the noises are loudest on alternate nights and why they always occur between 9 o'clock P. M. and 5 A. M.—*Springfield Republican.*

A LOVERS' TRAGEDY.

Murder and Suicide.

PROVIDENCE, R. I., Nov. 21.—Fritz Pachler, who last evening shot and killed Mary Bose and then shot himself, died this evening at the Rhode Island Hospital. The girl was about to go to Ohio with the expectation of marrying a man there and the knowledge of this fact probably caused the tragedy.

THE CHAMPLAIN CANAL.

The following dispatch was received from Commissioner Barkley:

MECHANICSVILLE, N. Y., Nov. 21.—Navigation is substantially suspended on the Champlain Canal north of this place. Effort to keep the canal open against the elements is impossible with the thermometer ten degrees below zero and eighteen inches of snow on the ground. Every superintendent on this division has been directed to do all in his power to get boats to tide water and every effort will be made to bring about that result.

A. BARKLEY,

THE TREASURY DEFALCATION.

An Unfounded Report.

ALBANY, Nov. 21.—The special dispatch published in New York to-day regarding the report of Treasury Examiner Warren is unauthorized and unfounded. The Governor has declined to permit any one to examine the document and no authentic statement of its contents can therefore now be made. The statement in the dispatch referred to with regard to the loan of moneys to clerks amounting to $30,000 or $40,000 during one month is entirely erroneous. If it were true the Governor would have at once suspended the Treasurer. The dispatch also gives an erroneous representation of the methods of doing business in the offices of the Comptroller and Treasurer. No such loose system of financial management exists as therein represented.

METROPOLITAN NEWS.

McQuade, Dr. Vanderpoel and son, Dr. Mosher and Quarantine Commissioners Steers, Judd and Schell. The excursionists visited the new boarding station, Dix Island and Hoffman Island and partook of a banquet on board the new quarantine steamer Nelson K. Activity at the Brooklyn Navy-Yard.

NEW YORK, Nov. 21.—An increased activity was observable to-day at the Brooklyn Navy-Yard. The orders to the heads of different departments are to push work upon the different vessels forward as rapidly as possible. Additional men have been added to nearly all the departments and there are now about 2,600 employed in the yard. There are six vessels either in course of preparation for war or about to be prepared. Of these it has been learned from a reliable source in the yard that the government is doing the work only on two, namely, the Colorado and Minnesota. The work on the others is being done by contract, this action having been taken because it is impossible for the regular government force, as now organized, to send off the vessels required in the time specified. Admiral Porter's torpedo boat is being rapidly prepared for service. Workmen are engaged on the Florida, which has the reputation of being the fastest vessel built, being capable of making eighteen knots an hour for six days without stopping to coal.

The steam yacht America, built for Henry A. Smith, the well-known stock operator, has been purchased or chartered by the government for a dispatch boat. The America is very fast. She leaves for Washington to receive orders. Captain George M. Ransom, executive officer of the navy-yard, has been ordered to take command of the Colorado.

A STARTLING STORY.

A Cuban gentleman living and doing business in this city, who arrived from Cuba yesterday, declared that the statement that more than one hundred of the crew of the Virginius were executed was true, as he saw it so stated by Spanish official reports in Havana.

THE SITUATION AT MADRID.

MADRID, Nov. 21.—The Politica newspaper says that in consequence of steps taken by Mr. Layard, the British Minister, General Sickles has suspended the preparations which he had been making for his departure from Madrid. It is rumored that the insurgents of Cartagena intend to surrender. This would release the vessels now in their possession and render the whole iron-clad fleet available in case of trouble with the United States.

ALEXANDER H. STEPHENS WANTS CUBA IMMEDIATELY IF NOT SOONER.

AUGUSTA, Ga., Nov. 21.—Hon. Alex. H. Stephens leaves here to-morrow evening for Washington. Though still feeble he hopes to be able to remain at his post during the session of Congress. In an interview to-day he said "I am for Cuba immediately if not sooner." He thinks a movement to take possession of Cuba would bring about a good feeling between the North and South.

THE WAR FEVER AT CHARLESTON.

CHARLESTON, S. C., Nov. 21.—The war news from Madrid and Washington to-day causes much excitement here and great anxiety is felt regarding the condition of Forts Sumter and Moultrie. It is hoped the government will place them immediately on a war footing.

EXCITEMENT AT WASHINGTON.

THE CABINET AND SPANISH AFFAIRS.

WASHINGTON, Nov. 21.—More excitement than heretofore has prevailed to-day consequent on the latest intelligence from Madrid, and the probabilities of war with Spain were freely discussed. All kind of rumors were in circulation, adding to the wide-spread excitement and causing numerous inquiries at official quarters as to their truth, if only to get assurances that the government was without official advices conferming them.

The State Department is making earnest inquiries for information to be forwarded to Minister Sickles as to the legitimate rights of the Virginius to all the privileges and protection guaranteed to an American vessel on the high seas. The subject has been thoroughly investigated in the Navigation Division of the Treasury Department. There is no reason to believe that an irregularity exists in the registry papers of that vessel.—This fact has been communicated by the Secretary of the Treasury to the Secretary of State and was one of the subjects that received attention at the Cabinet meeting to-day. Mr. Richardson producing copies of the papers and records of his department concerning her.

The Cabinet session was the longest ever held under President Grant's administration. Upon adjournment it was remarked that the meeting had been the most important ever held, a member stating that the whole time had been occupied upon the Virginius matter and its attending complications. The Cabinet officers are still careful not to permit a word to escape them as to the conclusion reached, either at this or the two preceding meetings. It can, however, be stated, in speaking of public sentiment in Spain as being of a violent and unfriendly character toward the American legation, that this feeling in Spain is brutal and unreasonable and it really seemed that a Ministry could not stand which could grant what is reasonable.

The government is without advices confirmatory of the reports that social relations between our representative at Madrid and the Spanish Minister of Foreign Affairs had been interrupted. Regarding the rumors of further violence against the legation and Minister Sickles personally, which were in active circulation to-day, it can be authoritatively stated that no reports of that character are confirmed by official dispatches.

THE PRESIDENT CALM.

The President, in conversing upon the subject of our relations with Spain, is free from anything like passion, his manner being calm but at the same time indicative of earnestness. He is evidently in full accord with the general sentiment of the country, but will do nothing that will even by implication place the United States in the wrong before the world.—While the United States sympathizes with Spain in her efforts to establish a republican form of government and will give all possible moral support in that direction, this movement on her part will not serve in the least degree to restrain our government from exacting the full measure of redress for the pending grievances and protecting all the interests covered by the national flag.

It was said by a well-known Senator to-night, after conversation with the President, that the Spanish government exhibits some alarm, not wishing to provoke hostilities with this government; that all Americans may rest assured proper measures will be taken to guard against possible or probable repetitions of the outrage, either by Spanish or Cuban authority, and further that the President will submit the whole matter to Congress for their advice and direction, and it can be added, the information having been received from a high official source, nothing has been received by the government essentially different from the news published in the newspapers with reference to Spanish or Cuban affairs, and when Congress meets there is no doubt that the public will be satisfied that prudence, combined with a due regard to our national honor, has been observed by the executive department of the government.

ENTHUSIASTIC CUBAN MEETING AT NEW ORLEANS.

NEW ORLEANS, Nov. 21.—A large and enthusiastic mass meeting of Cuban sympathizers was held at Exposition Hall to-night. Several speeches were made and resolutions adopted expressing admiration at the devotion and sacrifices of the Cubans during their five years of contest, condemning Spanish cruelty and barbarities, denouncing as a high-handed outrage the capturing of American citizens under the American flag on the high sea and their slaughter at Santiago de Cuba, re-asserting the support of the Monroe doctrine, pledging the support of the people of Louisiana to the national government in any steps taken to redress the last Spanish outrage and tendering heartfelt condolence to the families of the victims of the recent cowardly and inhuman butchers by Spaniards at Santiago de Cuba.

GRAND MEETING OF GERMAN SYMPATHIZERS.

NEW YORK, Nov. 21.—About 4,000 Germans met at the Germania Assembly rooms to-night to express sympathy with the Cuban cause and urge the administration to adopt a vigorous policy towards Spain. Ex-Alderman Rodde presided and many prominent German citizens, mostly men of letters, merchants and bankers, occupied the platform.

Dr. K. Frech said that the butchery at Santiago de Cuba was but an episode of the bloody history of Spanish rule on American soil. It is a moral necessity for this nation of freemen to end these outrages on humanity and civilization and assist a people struggling for liberty of conscience and freedom from military despotism. The American flag has been studiously insulted and its honor should be sustained at all hazards.

Ex-Assistant District Attorney Algeron S. Sullivan characterized the present aspect of the Cuban question as very grave. No nation should rush into war for a mere technicality, but the hazard of war should not deter a nation from maintaining the inviolability of its territory, including the decks of its ships on the high seas, from protecting its citizens from illegal violence, from upholding the dignity of its flag or from demanding every right secured by treaty and international law. Failure to vindicate these principles will in time bring greater evils than war. "In the case of the Virginius," said the speaker, "my judgment is clear and positive. It was an outrage of every principle of law and every national duty. It was a violation of the rights granted us by solemn treaties. It was a studied insult to our flag and our national name, and it was a wicked sequence to a long history of oppression and corruption never surpassed. The reparation must be most ample."

Dr. Berckmann held the administration responsible for the massacre, because it sold ships and arms to Spain and now pleads it has not arms and no ships. He would forgive all if a vigorous policy should now be adopted.

Hon. S. S. Cox then read a series of resolutions, which he intends to lay before Congress at the next session. The resolutions call for ample satisfaction from Spain and are couched in very determined language.

Appropriate resolutions were adopted by the meeting, after which Dr. Glaubenskiee, Dr. Auerbach and a number of others addressed the meeting.

Hon. S. S. Cox in the course of his remarks said the first act of Congress should be one laying an embargo on the Spanish war vessel Aripiles, now being repaired at the Brooklyn navy-yard.

THE LATTER DAY SAINTS AROUSED.

SALT LAKE, Nov. 21.—An immense meeting was held at the City Hall to-night in regard to Cuban atrocities. Speeches were made by principal citizens, Mormons and Gentiles, and intense feeling was manifested against the Spanish officials in Cuba. The unanimous expression of the meeting was for a speedy vindication of the American flag.

MARINE DISASTERS.

A Light Ship Sunk.

QUEBEC, Nov. 21.—The Red Island light ship now lies in White Island with four feet of water over her at high tide. The crew were twenty-four hours in the rigging and badly frost-bitten.

A SCHOONER AGROUND.

MILFORD, Ont., Nov. 22.—The schooner Enterprise, with a cargo of barley for Oswego, is ashore on Poplar Point, leaking badly.

A PROPELLER BEACHED.

AMHERSTBURG, Ont., Nov. 21.—The large iron propeller Java struck at the Lime Kilns, above here, Sunday and was beached below this port to save the vessel. Three steam pumps have been at work since, but have not succeeded in getting her off. The cargo is all damaged.

The propeller Russia struck at the same place in coming down the river. After discharging her deck load here she will go to Detroit to dock. Her cargo is partly damaged.

THE POSTMASTER GENERAL'S REPORT.

Renewing His Former Recommendations.

WASHINGTON, Nov. 21.—The following points are from the elaborate report of the Postmaster General:

The ordinary revenues of the Post Office Department for the fiscal year ended June, 1873, were $22,996,741 and expenditures of all kinds $29,084,945. The estimated expenditures for the year 1874 are $33,929,912; total estimated revenues $29,293,549; leaving a deficiency to be appropriated out of the general treasury of $4,636,383. This does not include $1,225,000 for mail service between San Francisco and Japan and China, between the United States and Brazil, and between San Francisco and the Sandwich Islands. It is stated that counting all railway lines both ways the mail service over them is 34,925 miles daily. Comparing the year 1873 with 1872 the rate of increase in the total number of letters exchanged with foreign countries was 12 1-7 per cent. and the rate of increase in amount of postage thereon was 8 per cent. The increase in the number of letters exchanged with European countries was 10½ per cent. and the increase of postage thereon amounted to 7½ per cent. A new contract has been executed with the Pacific Mail Steamship Company for an additional monthly mail between San Francisco and Hong Kong via Yokahama, authorized by the act of June, 1872, with the understanding that it shall make no claim upon the additional subsidy or any part thereof, but shall receive sea postage only, as heretofore, in full compensation for the additional service until the contract shall be fully complied with.

The Postmaster-General at some length recommends postal savings depositories.—Throughout the plan for their organization and work two ideas predominate. First, the United States is to insure the safe return of principal and interest whenever demanded, and second, the extensive machinery of the post-office is to be used to bring its advantages home to the great mass of the people, and the system organized and conducted on the basis as presented would not only encourage economy and habits of saving on the part of all who might be in the way of earning small sums of money, but would tend largely to utilize and keep in circulation the immense amounts which are paid out for wages and in business and give every depositor a direct interest in the stability of the government.

The Postmaster General again urges the assumption by the government of the control of the telegraph. A government postal telegraph is the only means by which the full benefit of the great invention can be secured, for wherever the telegraph is under government management it is operated at its minimum cost and people receive the benefit in low rates of transmission and greatly extended facilities. The telegraph should be made a part of the postal system without delay. As Congress does not seem inclined to exercise the discretion given in the third section of the act of July 24th, 1866, to appoint appraisers to value the lines, property and effects of the companies now in operation, and as the Western Union Company appears to be unwilling to make a voluntary sale at a fair price, the Postmaster General recommends that provision be made by law for the immediate establishment of a postal telegraph and for the construction of all such lines as may be needed, under direction of a competent officer of the Engineer Corps of the army. The experience they acquired during the war of the rebellion would enable them to do the work in the most economical and satisfactory manner.

A TENNESSEE TRIAL.

Ku Klux Running a Court.

LOUISVILLE, Nov. 21.—The trial of John Onan, charged with raiding with the Ku Klux and killing a negro named Wilson last July and burning his house, has just been concluded in the Owen Co. Circuit Court and resulted in his acquittal on the charge of murder and conviction on the charge of arson. There were over a hundred Ku Klux present during the trial and the proceedings went to suit their wishes in the face of positive proof of the guilt of the prisoner.

The Daily Freeman.

Kingston, Saturday Morning, Nov. 22.

Mr. Gallagher, of the Brooklyn Plasterer's Lodge, told an interviewer that this was only an "imaginary panic." That is precisaly what makes it a panic, Mr. G. All real fights get their strongest impulses from the tremendous power of the imagination. Cut that out of human nature and you deduct nine-tenths from the sum of mortal trouble and sorrow. "Canst thou minister to a mind diseased?" If not, then panics will recur to the end of time.

During the prevalence of the hard times consequent upon the panic all who are situated so as to be able to help others who need help many remember to advantage the fact that organized charities can do but a small part of the work to be done. There will be cases in which the suffering parties are proud as yourself, and who would almost starve before making application for relief to any official whatever. Further, remember that those who oftenest and most clamorously demand help are least worthy of it. Again, systematic charity always breeds systematic beggary, and often makes professional beggars of those who never meant to be. Seek out cases for yourself; assist without wounding, and many will bless you not only for material succor, but for the delicacy with which it was rendered.

Broke Jail.

The authorities of the Tombs prison have been seized with a spasm of virtuous indignation. It becomes them well. Few things are finer in their way than the glow of manly wrath which suffuses the cheek of honor and fidelity when some sharp rascality has temporarily defeated its set purpose to be good and true. Such is the dramatic *pose* assumed by the warder angels of the Center street hotel at this blessed minute. Sharkey, a condemned murderer, has escaped. He tried that little venture in a woman's clothes, and being cooler and more feminine by nature than Jeff. Davis, he succeded. A woman helped him? To be sure she did. In fact two of those omniscient helpmeets meted out help to him. So he passed the "heavy iron doors," clad in mourning, with sorrowing step and slow. Now everybody, from the Commissioners of Correction down through District Attorney Phelps to the grim Cerberus who takes the tickets to that criminal menagerie, cry out in chorus, "He never could have got away without the assistance of a keeper." Indeed! And yet we are told that the keepers are never examined before they are employed. For all the authorities know the custodians may be worse than the gentlemen behind the gratings. How astonishing that Sharkey should escape. It is almost as good a joke as the Stokes trial.

Castelar in Difficulty.

Our controversy with Spain relative to the capture of the Virginius and the execution of a majority of her passengers and crew continues to engross public attention. On account of the numerous conflicting stories and reports more or less credible, some of which vitally affect the original view popularly taken of the affair, it is quite impossible to go beyond a guess as to ultimate results. One thing, however, is tolerably sure; that no matter what the express nature of the demand which our government may make upon Madrid may be, it is evident the demand will be greater than it is in the power of Spain at present to concede. Castelar is fettered hand and foot by home public opinion. That being the case any satisfaction commensurate with the gravity of the situation must be exacted by force of our own army and navy. Such action on the part of the United States means nothing less than war. It is just within the region of possibility that something unexpected may occur to forestall so undesirable a catastrophe; but as the indications point to-day it is hard to predict what that something will be.

The Spaniards as a people are either tyrants themselves or are morally and intellectually debauched by the tyranny of others. They lack the precise requisite to an amicable adjustment of such an *imbroglio* as this; an ability to feel themselves in the wrong and a willingness to make material sacrifices for the sake of a principle. A nation which can delight its inmost soul with the brutalities of a bull-fight in the present century of the Christian era has not, as a whole, the moral sense to form a respectable and manageable member of the family of civilization. President Castelar, as we have frequently before taken pleasure in saying in these columns, belongs to the few leaders of a movement which will finally create a new Spain. But the leaven will require some scores and maybe hundreds of years to work before that nation can be trusted to preserve the peace at its own expense. Meanwhile it is to be increasingly regretted that a cargo of human beings so lawless and contemptible as was that of the Virginius should have involved us in so serious a dispute.

The Snake in the Cut Glass.

Rev. Dr. Tiffany, of the Metropolitan M. E. Church, Washington, said a little while ago that, having called upon President Grant, he (the Doctor) was deligated to find that no wine was ever offered to guests at the table of the White House; and also that wine had been generally excluded from fashionable society at the capital in connection with balls, parties and *routs*. Our cold-water sympathizers were warmed several degrees by the Reverend Doctor's announcement and we were led to anticipate a highly profitable and sober session of Congress when that naturally convivial and volatile body should meet next month. Now that the excellent example of Colfax is partially forgotten and altogether removed from the too peccable Senators and Members and the serene smile of his unassailable virtue eclipsed by the clouds of distance and villification, it is pressingly important that either his loss be made whole by some other truly good man, or temptations be reduced. This latter, if we may credit the Doctor, has been most happily accomplished. In the light of the worthy pastor's rose-colored statement does not the following picture of the way society goes it in Washington look a little queer? The extract is from the advance sheets of Lippincott's Magazine. The central figure is that of a young lady belonging to the highest circles. Gaze upon it and note how much this little picture resembles those Dr. Lord gives us in "The Old Roman World." You will remember Baie and the flush times of the Cæsarian regency:

"You have your choice of the frozen article, or of that claret concoction, to hold whose glowing ruby a bowl has been hollowed in the ice itself, or of the champagne punch, where to every litre of the champagne a litre of brandy, a litre of red rum, a litre of green tea are given, and where you see a flushed and fevered damsel dipping the ladle and tossing off her jorum as coolly as though she had not had her three wines at dinner that day, and had not, in half the houses of her dozen morning calls, sipped her sherry or set down her little punch-glass empty of its delicious mixture of old spirits and fermenting fruit-juices. Perhaps that sight sets you to thinking. You may have been attracted earlier in the night by her delicate toilette and her face pure as pearl; you saw her later, warm from the dance, eating and drinking in the supper-room; then her partner's arm was around her waist, her head was on his shoulder, and she was plunging into the German, whirling to maddening measures, presently caught in a new embrace, flying from that man's embraces to another's, growing wild with the abandon of the figure, hair flying, dress disordered, powder-caked face burning, till, pausing an instant for the champagne in a servant's hands, your girl with the face as pure as a pearl seemed nothing but a bacchante."

Is there not a faint chance that Dr. Tiffany sees only the sober side of things?

Mr. Brodhead's New Champion.

On Thursday evening, as reported in our issue of Friday, Mr. Wm. H. Romeyn went before the Board of Supervisors and asked to be heard on the Brodhead case. Permission having been granted him he proceeded to inform the Board that there had been gross mismanagement of the case for two years, and that the Board of 1871 was inadequate to the crisis. The first thought that will naturally occur to the taxpayers is, if Mr. Romeyn has seen that for two years there has been gross mismanagement of the case why hasn't he said so upon some occasion during that time in the paper he edits and which was issued 204 times during that interval? As a public journalist it was clearly his duty to point out any mismanagement. The second thought is, that during a year and a quarter of that two years the case was in the hands of Schoonmaker and Cooper, who refused to submit to the least control or direction of the Supervisors and could only be dealt with by a square vote deposing them. They pursued their own plan, refused to be guided or controlled, and after being deposed they cling to the case by every legal subterfuge possible.—The Supervisors have practically had no control of their case for two years, as during the period of Mr. Cantine's attorneyship the obstinacy of Schoonmaker and Cooper has kept the Supervisors from getting at their case. Clearly then the mismanagement has been that of Schoonmaker and Cooper, and yet Mr. Romeyn says they have been disgraced though they conscientiously performed their duty. Mr. Romeyn's point then is, that the case has been mismanaged, but the men who have mismanaged it have been unjustly disgraced, and should be paid heavily.

Another point made by Mr. Romeyn is, that the county is liable for heavy costs in litigation. So far there have been no costs except those made by the men he champions, Messrs. Marius Schoonmaker and James M. Cooper, either in their mismanagement of the case, or by the necessity of incurring cost they have put the county to in their efforts to resist their removal.

Another point made by Mr. Romeyn is, that the assets of Brodhead should have been taken. For the county of Ulster to establish the principle that its retiring Treasurers can pay it in cats and dogs instead of money, would have been suicidal and offered a premium for defalcations. But even if the principle were declared a good one Mr. Brodhead, beyond the securities turned into cash, offered no assets of any considerable amount. To attack Mr. Coykendall for refusing to take anything but cash is to condemn him for refusing to violate the law, which did not permit him to take anything else. And when Mr. Romeyn further complains because Mr. Coykendall paid the county interest on a loan, he puts himself in the position of objecting to a Treasurer receiving money upon a bond for $550,000 signed by twelve gentlemen each worth $75,000, and paying interest therefor to the amount of $10,000 and turning over the amount in cash, while he extols another who gave the county the slimmest possible security, paid it no interest, demands percentage, fees, lost bonds, &c., &c., to the amount of more than fifty thousand dollars. Coykendall he considers a scoundrel and should be prosecuted, though he has served without pay, and returned every cent promptly upon retiring, while he thinks Brodhead is a saint and shouldn't be prosecuted at all for anything, though he has done just the opposite.

Mr. Romeyn further objects to the purchase of $83,000 of Rondout & Oswego Railroad bonds at 70 by Thomas Cornell, and claims they should have been taken by Treasurer Coykendall at par, and that there has been a loss of $24,900 to the county by the transaction. The bonds were offered at auction a few days after, and there was no bid above 70; there has no sale above that rate been made public since that time; and to-day they can be bought by the hundred thousand at 50 cents, and probably at a less figure. So that if the county had taken that $83,000 it would have lost 50 cents on the dollar, or $41,500. Mr. Cornell's offer to Litchfield at par was made on a proposition to retire the first mortgage in order to issue a new one at $30,000 per mile. Of course any holder would have asked par upon such a proposition. But there never was such a market rate, and Mr. Cornell never received such a price, and never will; and Mr. Romeyn can't have the least idea they are worth any such price.

Mr. Romeyn's recommendation to settle with Brodhead on the basis of Referee Scott's decision is ludicrously out of time. Before The Freeman procured the testimony and showed how the case had been managed by the Board's attornies such a proposition might have been received by some, but there isn't a corporal's guard among the taxpayers who would listen to such a thing now.

So with the proposition to pay Marius Schoonmaker and Cooper heavy fees. We understand Mr. R. to ask that they have $15,000. It will not be given them unless they win it in the suit.

There is nothing else worthy of note in the harangue save the position of its author. His sympathy with Brodhead has been no secret to individuals, but now he has publicly committed himself to him just as the entire public are united in opinion as to his case. It is as if a metropolitan newspaper on the day before Tweed's conviction should have suddenly proclaimed him a saint and his prosecutors scoundrels. Mr. Romeyn's attempt to commit the Republican party, of which his paper claims to be an organ, to the support of the decaying fortunes of the Ring will of course be repudiated by the leaders of the party, as they have no desire to follow Mr. Romeyn's example and commit political suicide.

CURRENT TOPICS.

—The Second Adventists won't give it up. They are still waiting for the grand finale.—It's too bad they were disappointed.

—Two thousand dollars is offered for Sharkey's capture, dead or alive. But how much cheaper it would have been to have kept an eye on him while they had him.

—Tweed to the people in 1871—"What are you going to do about it?" The people to Tweed in 1873—"What are *you* going to do about it?"

—Gen. Butler is very sensible on the Cuban question. Summed up his advice is "Be sure you're right, then go ahead—and if it is necessary to capture Cuba to get justice, why, we must capture her."

—It seems Tweed isn't kept in jail, as he should be, since his conviction, but is allowed to run about very much as he pleases. Has the fact that Sheriff Brennan was one of his cronies in his palmy days anything to do with it?

—Well, shades of William Penn! if here isn't a nice go! A revolution is proposed among the Quakers, and it is proposed to do away with the "thee" and "thou" of their conversation and the peculiar style of clothing in vogue among them and adopt certain other "outside peculiarities." Can it be that Grant's Indian policy has had anything to do with transmogrifying the broadbrims?

—It is the "general impression," we are told, of the congressmen now in Washington, that the grab is not going to be repealed. Of course, they say, propositions will be brought forward, and perhaps speeches made for buncombe; but talking about doing isn't doing it. We strongly suspect their "impression" is correct, too.

—The Chicago Times sent "interviewers" to six leading Democrats of Indiana to obtain their opinions on political affairs. The six were Thomas A. Hendricks, William S. Holman, Joseph E. McDonald, Michael C. Kerr, Daniel W. Voorhees and Elijah S. Alvord.—They all agreed that the Democratic party must retain its old name, though its platform must be "liberalized." The Times laughs at this as an inconsistency.

—A proof of the effect of the sensationalism of the New York Herald is seen in the fact that its Spanish special dispatches are looked upon with much distrust. There's too much flavor of Herald "intellectual department" cookery about them. And even if all they represent be true it will need confirmation from other sources before people will believe it. If the Spanish Minister had insulted Gen. Sickles our government would probably know it quite as soon as the Herald.

—The report of the Internal Revenue Commissioner, on the whole, is encouraging. It shows that the receipts for the last fiscal year exceeded the estimate by over four millions of dollars, and that, notwithstanding the reduction in taxes, there has been an actual increase of over two millions in the receipts from all sources relating to spirits. The retrenchment in the matter of superfluous assessors and assistant assessors, in figures, proves to be a saving of over a million of dollars, while the collection business has been equally as well attended to as under the old plan.

—It takes a western paper for outright vigorousness of expression. Here is the St. James, Minn., Herald, commenting in characteristic style: "The skunks say they have the county seat, and St. James and all the railroads this side of (a very torrid place) have not money enough to take it away from them. Well, we don't know how that is, but we hardly think there are *votes* enough this side of the infernal regions to beat Madella. A town of only 813 inhabitants polling 799 votes; just think of it! Don't it beat the devil?"

—Bishop Hennessy of Iowa has prohibited dancing at Catholic fairs and festivals in his diocese, stating that hereafter churches will be built without dancing.

—A smart little boy in New Orleans was reproved by his mother for telling a fib. He insisted it was only in fun, but his pious mother told him he must ask Divine pardon. So the little boy kneeled down and said: "Oh, Lord, forgive me. I wouldn't have done it, only I thought you could take a joke."

—Dio Lewis now tells "our girls" that if they want to learn to walk well they should "walk an hour a day, with a weight—say a bag of beans—upon their heads." A few days ago the Doctor advised ladies to eat beans to improve their complexion. We begin to suspect that he belongs to a bean "ring," and is trying to bull the bean market.

—A water-spout on Lake Erie was recently seen from the summit of Little Mountain, near Cleveland. Three attempts at mounting were made; the first broke before reaching the clouds, the second was a complete spout, the third broke up in a dense mist.

—The editor of the Watchman's Cry, at Meriden, Ct., the organ of the Adventists on Terry Island, has resumed his duties, and though disappointed that the world did not come to an end on the 5th as predicted, has hopes that "ere another paper can be issued, all will meet in the Immortal Kingdom."

—A fiend in human shape crawled into David Stewart's livery stable, in San Francisco, on the night of the 31st ult., and poisoned all the horses in the establishment, thirty-three head in all. A number have died from the effects of the poison, and few are expected to recover.

—The prairies of northwestern Iowa have been swept by fire, and many settlers have lost their grain, hay, and a part or all of their stock. The fire originated in Kossuth county, where a farmer ignited the stubble to clear off his ground. The flames extended to the rank growth of dry grass beyond, and spread thro' Kossuth, Hancock, and Winnebago counties.

—The Utica Herald says that Hon. Thomas G. Alvord has concluded negotiations for the last piece of land for right of way for the new Central railroad tracks around Syracuse, completed the entire purchase without a single law suit, and on terms satisfactory to the owners and the company.

—A new life-boat, constructed entirely of cork and cane, was recently tried in Liverpool, and the results are said to have been very satisfactory. The advantages claimed for it are that it weighs only one-third as much as the boats constructed out of ordinary materials; its strength and elasticity are such that it cannot be broken by rough usage; it is self-emptying, and cannot be capsized in any sea; it can be launched without the aid of davits and tackle, and it is less costly than any other so-called life-boat.

A Haunted Locomotive.

A locomotive that is possessed of a devil is the sensation at South Manchester, Conn. The engine is called the "Pioneer," formerly the Canonchet, and belongs to the Hartford, Providence & Fishkill Railroad. She was sold to another road recently, but owing to some misunderstanding was never delivered, and to get her out of the way the company sent her from Hartford to South Manchester a week or two ago, to be housed in the engine house there. She behaved herself like a well-bred engine the first two nights, but on the third the watchman heard strange noises unlike anything he ever heard before. This continued every night, and was heard by his brother, who came to keep him company in the uncanny place. Then the story got abroad that there was a haunted engine at the shop, and believers and unbelievers began to flock around. The noise continued to be audible. There was rappings now in the fire box, now in the boiler, and anon in the smoke-stack, as though some person inside was striking the iron with a muffled stick, and a hollow and dismal reverberation followed each blow. The most careful and thorough examination failed to disclose any trickery or the possibility of any, and the impudent spirit would keep up the racket even while the scrutiny was going on. People go to the engine house and stay nights to hear the manifestations, and it is related that one young man who was making unseemingly jests about the ghosts suddenly grew deathly pale and fell in a swoon. When he recovered he said he saw a ghostly figure glide out of the engine and point his bony finger at him. There are divers theories to account for the business. A gentleman from Pittsburgh, who knows all about iron and locomotives, says it is the molecular action of the iron striving to return from the artificial fibrous state. The believers in the spirit theory floor him at once, however, by asking him why the noises are loudest on alternate nights and why they always occur between 9 o'clock P. M. and 5 A. M.—*Springfield Republican.*

GEN. SHERMAN AT NEWARK.

How the Jerseyites Welcome the Bluff Old Soldier.

NEWARK, N. J., Nov. 21.—Gen. Sherman arrived this afternoon from Washington to visit the Industrial Exposition and was welcomed at the depot by a large collection of soldiers of the late war. He spent the evening at the Exposition, which was so densely crowded that he moved about with difficulty aided by a police force. He was greeted with unbounded enthusiasm on all sides.

BISHOP CUMMINS.

His Ticket of Leave to be Given Him.

LOUISVILLE, Ky., Nov. 21.—The standing committee of the Diocese of Kentucky have forwarded to Bishop Smith at Hoboken, N. J., a certificate of Bishop Cummins' withdrawal from the diocese and the Protestant Episcopal church. The next step is the formal deposition of Bishop Cummins from episcopal functions.

STATE OF THE CANALS.

Efforts to Keep the Erie Open.

ALBANY, Nov. 21.—The canal officials are doing all in their power to assist navigation, but are meeting with great difficulty. At various points the canal is thoroughly closed and the property locked in is enormous.

THE CHAMPLAIN CANAL.

The following dispatch was received from Commissioner Barkley:

MECHANICSVILLE, N. Y., Nov. 21.—Navigation is substantially suspended on the Champlain Canal north of this place. Effort to keep the canal open against the elements is impossible with the thermometer ten degrees below zero and eighteen inches of snow on the ground. Every superintendent on this division has been directed to do all in his power to get boats to tide water and every effort will be made to bring about that result.

A BARKLEY,
Canal Commissioner.

THE TREASURY DEFALCATION.

An Unfounded Report.

ALBANY, Nov. 21.—The special dispatch published in New York to-day regarding the report of Treasury Examiner Warren is unauthorized and unfounded. The Governor has declined to permit any one to examine the document and no authentic statement of its contents can therefore now be made. The statement in the dispatch referred to with regard to the loan of moneys to clerks amounting to $30,000 or $40,000 during one month is entirely erroneous. If it were true the Governor would have at once suspended the Treasurer. The dispatch also gives an erroneous representation of the methods of doing business in the offices of the Comptroller and Treasurer. No such loose system of financial management exists as therein represented.

METROPOLITAN NEWS.

Ingersoll Nabbed.

NEW YORK, Nov. 21.—Last night James H. Ingersoll was rearrested by Sheriff Brennan on suspicion of intended escape. He was to-day taken to the District Attorney's office, where he was engaged up to noon endeavoring to effect an arrangement, but without success.

Judge Sutherland this afternoon committed Ingersoll to the Tombs to await trial, he having failed to affect arrangements for his release.

A VISIT TO THE QUARANTINE STATION.

On invitation of the Health Officer of the port an inspection was made to-day of the quarantine establishment by a party of gentlemen from various parts of the state, including the following among others: Comptroller Nelson K. Hopkins, Senators James Wood, Daniel P. Wood, Lowery and Wagner, Police Commissioner Smith, Superintendent Gray of the Utica Insane Asylum, Gen. McQuade, Dr. Vanderpoel and son, Dr. Mosher and Quarantine Commissioners Steers, Judd and Schell. The excursionists visited the new boarding station, Dix Island and Hoffman Island and partook of a banquet on board the new quarantine steamer Nelson K. Hopkins, during which speeches were made by the Comptroller elect, Dr. Vanderpoel, Senator Daniel Wood, Commissioner Schell and others. After sailing up the East River by the public institution the party returned to the city.

FIREMEN IN COUNCIL.

A special committee of Chief Engineers of fire departments of the leading cities of the United States concluded a two days' session in this city to-day. A number of resolutions were adopted urging the enactment of laws looking to the prevention of fires.

JOHN T. IRVING'S STORY.

Cole Gunning, a well-known burglar, was to-day taken from the penitentiary, where he had just completed a six months' term, and locked up at police headquarters on a charge of complicity in the Nathan murder preferred by John T. Irving. Irving implicated both Gunning and Daniel Kelly in the murder by stating that the former killed Nathan while Kelly and he were waiting in the house. It is also stated that Kelly is under arrest.

A RUMOR DECLARED FALSE.

The rumor of the personal suspension of J. Edgar Thompson, President of the Pennsylvania Railroad is denied, a telegraphic dispatch having, it is said, been received this evening in this city stating that the rumor is utterly without foundation.

The Spanish War Cloud.

Exciting Rumors.

ACTIVE PREPARATIONS GOING ON.

Enthusiastic Cuban Meetings Throughout the Country.

Activity at the Brooklyn Navy-Yard.

NEW YORK, Nov. 21.—An increased activity was observable to-day at the Brooklyn Navy-Yard. The orders to the heads of different departments are to push work upon the different vessels forward as rapidly as possible. Additional men have been added to nearly all the departments and there are now about 2,600 employed in the yard. There are six vessels either in course of preparation for war or about to be prepared. Of these it has been learned from a reliable source in the yard that the government is doing the work only on two, namely, the Colorado and Minnesota. The work on the others is being done by contract, this action having been taken because it is impossible for the regular government force, as now organized, to send off the vessels required in the time specified. Admiral Porter's torpedo boat is being rapidly prepared for service. Workmen are engaged on the Florida, which has the reputation of being the fastest vessel built, being capable of making eighteen knots an hour for six days without stopping to coal.

The steam yacht America, built for Henry A. Smith, the well-known stock operator, has been purchased or chartered by the government for a dispatch boat. The America is very fast. She leaves for Washington to receive orders. Captain George M. Ransom, executive officer of the navy-yard, has been ordered to take command of the Colorado.

A STARTLING STORY.

A Cuban gentleman living and doing business in this city, who arrived from Cuba yesterday, declared that the statement that more than one hundred of the crew of the Virginius were executed was true, as he saw it so stated by Spanish official reports in Havana.

THE SITUATION AT MADRID.

MADRID, Nov. 21.—The Politica newspaper says that in consequence of steps taken by Mr. Layard, the British Minister, General Sickles has suspended the preparations which he had been making for his departure from Madrid. It is rumored that the insurgents of Cartagena intend to surrender. This would release the vessels now in their possession and render the whole iron-clad fleet available in case of trouble with the United States.

ALEXANDER H. STEPHENS WANTS CUBA IMMEDIATELY IF NOT SOONER.

AUGUSTA, Ga., Nov. 21.—Hon. Alex. H. Stephens leaves here to-morrow evening for Washington. Though still feeble he hopes to be able to remain at his post during the session of Congress. In an interview to-day he said "I am for Cuba immediately if not sooner." He thinks a movement to take possession of Cuba would bring about a good feeling between the North and South.

THE WAR FEVER AT CHARLESTON.

CHARLESTON, S. C., Nov. 21.—The war news from Madrid and Washington to-day causes much excitement here and great anxiety is felt regarding the condition of Forts Sumter and Moultrie. It is hoped the government will place them immediately on a war footing.

EXCITEMENT AT WASHINGTON.

THE CABINET AND SPANISH AFFAIRS.

WASHINGTON, Nov. 21.—More excitement than heretofore has prevailed to-day consequent on the latest intelligence from Madrid, and the probabilities of war with Spain were freely discussed. All kind of rumors were in circulation, adding to the wide-spread excitement and causing numerous inquiries at official quarters as to their truth, if only to get assurances that the government was without official advices conferming them.

The State Department is making earnest inquiries for information to be forwarded to Minister Sickles as to the legitimate rights of the Virginius to all the privileges and protection guaranteed to an American vessel on the high seas. The subject has been thoroughly investigated in the Navigation Division of the Treasury Department. There is no reason to believe that an irregularity exists in the registry papers of that vessel.—This fact has been communicated by the Secretary of the Treasury to the Secretary of State and was one of the subjects that received attention at the Cabinet meeting to-day, Mr. Richardson producing copies of the papers and records of his department concerning her.

The Cabinet session was the longest ever held under President Grant's administration. Upon adjournment it was remarked that the meeting had been the most important ever held, a member stating that the whole time had been occupied upon the Virginius matter and its attending complications. The Cabinet officers are still careful not to permit a word to escape them as to the conclusion reached, either at this or the two preceding meetings. It can, however, be stated, in speaking of public sentiment in Spain as being of a violent and unfriendly character toward the American legation, that this feeling in Spain is brutal and unreasonable and it really seemed that a Ministry could not stand which could grant what is reasonable.

The government is without advices confirmatory of the reports that social relations between our representative at Madrid and the Spanish Minister of Foreign Affairs had been interrupted. Regarding the rumors of further violence against the legation and Minister Sickles personally, which were in active circulation to-day, it can be authoritatively stated that no reports of that character are confirmed by official dispatches.

THE PRESIDENT CALM.

The President, in conversing upon the subject of our relations with Spain, is free from anything like passion, his manner being calm but at the same time indicative of earnestness. He is evidently in full accord with the general sentiment of the country, but will do nothing that will even by implication place the United States in the wrong before the world.—While the United States sympathizes with Spain in her efforts to establish a republican form of government and will give all possible moral support in that direction, this movement on her part will not serve in the least degree to restrain our government from exacting the full measure of redress for the pending grievances and protecting all the interests covered by the national flag.

It was said by a well-known Senator to-night, after conversation with the President, that the Spanish government exhibits some alarm, not wishing to provoke hostilities with this government; that all Americans may rest assured proper measures will be taken to guard against possible or probable repetitions of the outrage, either by Spanish or Cuban authority, and further that the President will submit the whole matter to Congress for their advice and direction, and it can be added, the information having been received from a high official source, nothing has been received by the government essentially different from the news published in the newspapers with reference to Spanish or Cuban affairs, and when Congress meets there is no doubt that the public will be satisfied that prudence, combined with a due regard to our national honor, has been observed by the executive department of the government.

ENTHUSIASTIC CUBAN MEETING AT NEW ORLEANS.

NEW ORLEANS, Nov. 21.—A large and enthusiastic mass meeting of Cuban sympathizers was held at Exposition Hall to-night. Several speeches were made and resolutions adopted expressing admiration at the devotion and sacrifices of the Cubans during their five years of contest, condemning Spanish cruelty and barbarities, denouncing as a high-handed outrage the capturing of American citizens under the American flag on the high sea and their slaughter at Santiago de Cuba, re-asserting the support of the Monroe doctrine, pledging the support of the people of Louisiana to the national government in any steps taken to redress the last Spanish outrage and tendering heartfelt condolence to the families of the victims of the recent cowardly and inhuman butchers by Spaniards at Santiago de Cuba.

GRAND MEETING OF GERMAN SYMPATHIZERS.

NEW YORK, Nov. 21.—About 4,000 Germans met at the Germania Assembly rooms to-night to express sympathy with the Cuban cause and urge the administration to adopt a vigorous policy towards Spain. Ex-Alderman Rodde presided and many prominent German citizens, mostly men of letters, merchants and bankers, occupied the platform.

Dr. K. Frech said that the butchery at Santiago de Cuba was but an episode of the bloody history of Spanish rule on American soil. It is a moral necessity for this nation of freemen to end these outrages on humanity and civilization and assist a people struggling for liberty of conscience and freedom from military despotism. The American flag has been studiously insulted and its honor should be sustained at all hazards.

Ex-Assistant District Attorney Algeron S. Sullivan characterized the present aspect of the Cuban question as very grave. No nation should rush into war for a mere technicality, but the hazard of war should not deter a nation from maintaining the inviolability of its territory, including the decks of its ships on the high seas, from protecting its citizens from illegal violence, from upholding the dignity of its flag or from demanding every right secured by treaty and international law. Failure to vindicate these principles will in time bring greater evils than war. "In the case of the Virginius," said the speaker, "my judgment is clear and positive. It was an outrage of every principle of law and every national duty. It was a violation of the rights granted us by solemn treaties. It was a studied insult to our flag and our national name, and it was a wicked sequence to a long history of oppression and corruption never surpassed. The reparation must be most ample."

Dr. Berckmann held the administration responsible for the massacre, because it sold ships and arms to Spain and now pleads it has not arms and no ships. He would forgive all if a vigorous policy should now be adopted.

Hon. S. S. Cox then read a series of resolutions, which he intends to lay before Congress at the next session. The resolutions call for ample satisfaction from Spain and are couched in very determined language.

Appropriate resolutions were adopted by the meeting, after which Dr. Glaubenskiez, Dr. Auerbach and a number of others addressed the meeting.

Hon. S. S. Cox in the course of his remarks said the first act of Congress should be one laying an embargo on the Spanish war vessel Aripiles, now being repaired at the Brooklyn navy-yard.

THE LATTER DAY SAINTS AROUSED.

SALT LAKE, Nov. 21.—An immense meeting was held at the City Hall to-night in regard to Cuban atrocities. Speeches were made by principal citizens, Mormons and Gentiles, and intense feeling was manifested against the Spanish officials in Cuba. The unanimous expression of the meeting was for a speedy vindication of the American flag.

MARINE DISASTERS.

A Light Ship Sunk.

QUEBEC, Nov. 21.—The Red Island light ship now lies in White Island with four feet of water over her at high tide. The crew were twenty-four hours in the rigging and badly frost-bitten.

A SCHOONER AGROUND.

MILFORD, Ont., Nov. 22.—The schooner Enterprise, with a cargo of barley for Oswego, is ashore on Poplar Point, leaking badly.

A PROPELLER BEACHED.

AMHERSTBURG, Ont., Nov. 21.—The large iron propeller Java struck at the Lime Kilns, above here, Sunday and was beached below this port to save the vessel. Three steam pumps have been at work since, but have not succeeded in getting her off. The cargo is all damaged.

The propeller Russia struck at the same place in coming down the river. After discharging her deck load here she will go to Detroit to dock. Her cargo is partly damaged.

THE POSTMASTER GENERAL'S REPORT.

Renewing His Former Recommendations.

WASHINGTON, Nov. 21.—The following points are from the elaborate report of the Postmaster General:

The ordinary revenues of the Post Office Department for the fiscal year ended June, 1873, were $22,996,741 and expenditures of all kinds $29,084,945. The estimated expenditures for the year 1874 are $33,929,912; total estimated revenues $29,293,549; leaving a deficiency to be appropriated out of the general treasury of $4,636,383. This does not include $1,225,000 for mail service between San Francisco and Japan and China, between the United States and Brazil, and between San Francisco and the Sandwich Islands. It is stated that counting all railway lines both ways the mail service over them is 34,925 miles daily. Comparing the year 1873 with 1872 the rate of increase in the total number of letters exchanged with foreign countries was 12 1-7 per cent. and the rate of increase in amount of postage thereon was 8 per cent. The increase in the number of letters exchanged with European countries was 10¾ per cent. and the increase of postage thereon amounted to 7⅞ per cent. A new contract has been executed with the Pacific Mail Steamship Company for an additional monthly mail between San Francisco and Hong Kong via Yokahama, authorized by the act of June, 1872, with the understanding that it shall make no claim upon the additional subsidy or any part thereof, but shall receive sea postage only, as heretofore, in full compensation for the additional service until the contract shall be fully complied with.

The Postmaster-General at some length recommends postal savings depositories.—Throughout the plan for their organization and work two ideas predominate. First, the United States is to insure the safe return of principal and interest whenever demanded, and second, the extensive machinery of the post-office is to be used to bring its advantages home to the great mass of the people, and the system organized and conducted on the basis as presented would not only encourage economy and habits of saving on the part of all who might be in the way of earning small sums of money, but would tend largely to utilize and keep in circulation the immense amounts which are paid out for wages and in business and give every depositor a direct interest in the stability of the government.

The Postmaster General again urges the assumption by the government of the control of the telegraph. A government postal telegraph is the only means by which the full benefit of the great invention can be secured, for wherever the telegraph is under government management it is operated at its minimum cost and people receive the benefit in low rates of transmission and greatly extended facilities. The telegraph should be made a part of the postal system without delay. As Congress does not seem inclined to exercise the discretion given in the third section of the act of July 24th, 1866, to appoint appraisers to value the lines, property and effects of the companies now in operation, and as the Western Union Company appears to be unwilling to make a voluntary sale at a fair price, the Postmaster General recommends that provision be made by law for the immediate establishment of a postal telegraph and for the construction of all such lines as may be needed, under direction of a competent officer of the Engineer Corps of the army. The experience they acquired during the war of the rebellion would enable them to do the work in the most economical and satisfactory manner.

A TENNESSEE TRIAL.

Ku Klux Running a Court.

LOUISVILLE, Nov. 21.—The trial of John Onan, charged with raiding with the Ku Klux and killing a negro named Wilson last July and burning his house, has just been concluded in the Owen Co. Circuit Court and resulted in his acquittal on the charge of murder and conviction on the charge of arson. There were over a hundred Ku Klux present during the trial and the proceedings went to suit their wishes in the face of positive proof of the guilt of the prisoner.

LOCAL INTELLIGENCE.

CITY NOTES.

—High water at Rondout Light House today at 4 P. M. and 3:30 A. M.

—Travelers on Lackawanna street complain that the sidewalk is blocked up by barrels.

—Yesterday 41 canal boats laden with 5,175 tons of coal reached tide water at Eddyville through the Delaware & Hudson canal.

—We are unable to decide which are the most plenty on the market, chickens and turkeys or ladies' new hats.

—There is a good bottom now and all we want is a few inches more snow to make sleighing in the city first rate.

—Rondoubt has raised a company of 130 men for Cuba.—*Albany Journal.* No *doubt* about it.

—John Shultz and Michael Mayer on Mill street are both turning out some very handsome single sleighs, both swell-bodies and Portlands.

—Ice of considerable thickness formed on the creek during Thursday night and the river at and above this point was also skimmed over.

—David Carle lost the robe from his horse uptown on Thursday night. It is supposed to have been stolen, as the joke, if one were intended, is quite a long one.

—The following is a conversation overheard on one of our down town streets on Friday, between two adopted citizens *not* from France: "He's a d—n smart fellah; and all he lacks is —." "Eddication," quoth the other chap, after allowing the first speaker some time to think of what "the d—n smart fellah" lacked.

—Our city blacksmiths are very busy just now ironing new sleighs, and the horse-shoers have to work early and late, and then can't sharpen horses' shoes fast enough to comply with the demands. Friday was a bad day for horses not sharp shod, the roads being very slippery, and many horses fell down.

—Those of our fellow citizens who, in bygone years, were initiated in the mysteries of the Order of the Sons of Malta will remember that one of the questions asked them was, "How much will you subscribe toward the acquisition of Cuba?" The question can with propriety be repeated at this time, and all sums subscribed will be thankfully received by Lieut. Henry Weiner, Paymaster of the company of volunteers raised in this city for service in Cuba.

—Mr. Philip Phillips, the Singing Pilgrim, gave some very sweet singing last night at the Rondout M. E. Church. There was more variety than usual, the selections presenting more varied styles of music. His voice is very sweet, with wonderful elasticity. He also gave occasionally a few choice remarks. He has a very pleasant face, especially when he smiles. The choicest pieces of the programme were "Depart from Me," especially in the supplication, and "Sweeping through the Gates." The Ladies' Aid Society netted about $36.

A Mechanical Marvel.

A short time ago we mentioned the fact that George Styles, the watchmaker, had an electric time-piece in one of his show windows. Since that time Mr. Carter, of the firm of Safford & Carter, not to be outdone by any watchmaker in the country, has made a time-piece that astonishes all the people in the place. The folks say it must be run by the powers of witchcraft, for the whole affair is simply a large square piece of plate glass with a peg in the centre on which the two hands are placed. Everything in and about the glass is open to the sight, and though nothing is connected with the hands, they not only keep perfect time, but are loose on the pivot, and if twirled around any number of times will settle back to the right place, even making an allowance for the few seconds in which they have been turning. It is certainly a most ingenious thing, and stamps Mr. Carter as an inventor of no mean ability, as well as a workman of unusual skill.

E. McC. Russell's Death.

The Equitable Life Insurance Co. is hard at work investigating the death of E. McC. Russell. The company has two detectives at work on the case. The most important facts are that but ninety cents were found upon the person of the deceased, and that his body lay upon the West bank of the railroad, when it is known that he was a passenger on the up train. These two facts are considered to be of grave importance, and it is stated that in a few days other important facts will be given, all of which will tend to show that Mr. Russell was murdered.—*Catskill Recorder.*

The Sleightburgh Ferry.

Notwithstanding the fact that the noble steamer Riverside has parted one of its chains —the starboard one, going toward Sleightburgh and the port one, coming toward this city—it is the unanimous conviction of the captain, chief engineer, firemen, and deck hands that the steamer can be safely and as promptly as usual navigated between the two places until the ice is of sufficient thickness to permit pedestrians to cross upon it. We understood the Purser of the vessel had some misgivings about running with the craft in a heavy sea unless that chain was replaced, but upon interviewing him he repelled the insinuation with scorn, avowing his intention to stick to the ship so long as she remained inside the lighthouse, but should she be swept past that he thought it every man's duty to look to his own safety and not sacrifice his life recklessly —a sentiment in which we concur most heartily, for a man so weighted down with specie as the Purser usually is, to say nothing of the rest of his load, doesn't want to get where he can't wade ashore.

John's "Koon."

That coon of John Schnitzler's makes 'lots of vun for de poys." On Friday Dittus and Fred Keuer had a discussion about what kind of an animal it was, Dittus asserting that it was a dachs (German woodchuck), but Keuer couldn't hoist that in, for he said dachs weighed from eighty to ninety pounds each. "Oh, go 'long," said Dittus, "I've often caught seven or eight in one hole;" whereupon Constantine Scheick said, 'Dittus, Keuer don't mean dachs weigh so much, but ox." Just then Fritz Jockel, the milk butcher, came in, and seeing the coon for the first time exclaimed, "*Herr gott noch a-mal!* John, did you catch it alive?" That brought down the house and Fritz had to call for "beer."

That *old* coon made a great noise about five o'clock on Friday morning; it had been out somewhere all night and wanted to get in. John said he "didn't care so long as The Freeman chaps didn't hear it," but Mary scolded till John told her her name must be changed to Martha, because "she was troubled about many things," and what was the use of making a row 'cause an old coon stayed out once in a while until five o'clock in the morning, and made a little noise to get in, because he was cold?" Mary had no more to say, only she meant to sell that old coon or give it away, to which John asked, "Is dot so?"

—George Van Steenburgh's house at Union Grove, with all it contained, was burned on Thursday.

ALONG THE RIVER.

—There are about 475 pupils attending the night schools at present in Troy.

—The Clinton foundry in Troy started work Thursday with thirty-five men.

—About five hundred men are now at work at the Iron Works in Troy.

—Corning's steam mill in Troy started up Thursday night, the Star forge having been in operation since Monday night.

—It is stated that many of the stove foundries in Troy will shut down Saturday night for the winter.

—There were 500 boats frozen in the Erie canal between Troy and Schenectady. The ice is two inches thick in the canal.

—The contract for the extension of the Albany Water Works has been awarded to Frank Turner of Toronto, Ontario, Canada.

—J. A. Hovey's cotton mills at Ballston will shut down on the 29th inst. About 200 hands will be then out of employment.

—A reduction of twenty-five per cent. has been made in the wages of the employees at the Ballston axe factory, and in consequence the hands have ceased working.

—The Clarkson Globule Company of Troy are about to declare a dividend of five per cent. on the capital stock. Evidently the panic has not affected this company.

—Repairs in the blast furnace on the flats opposite Troy are nearly completed, but it is not probable that the furnace will be started until prospects brighten.

—Early on Thursday morning the thermometer indicated zeroish weather in Newburgh, and skim ice was observed on the bay for the first time this season.

—The freight and passenger propeller, Andrew Harder, of Stuyvesant, put in at the Long Dock on her way North Thursday morning about eleven o'clock, for coal.

—Commissioner Enright, Clerk of the Albany Market, on Thursday drove a number of hucksters, having sixteen carcases of blown and stuffed mutton and lamb, from the State street market.

—In the suit of Samuel Jackson and others, executors of the estate of Alonzo C. Paige, deceased, vs. The New York Central & Hudson River Railroad Company, the defendants have appealed to the General Term from the judgment against them in favor of the plaintiffs for $13,864.60 damages and costs.

—Two lumber and freight barges of three hundred and fifty tons each, are to be built during the winter and spring by Peter S. Crame, at his shipyard foot of Columbia street, Poughkeepsie. These barges are to run between Troy and New Haven and Hartford.

—Mr. Lewis J. O'Brien is likely to be the agent of the Hudson River steamboats that touch at this point, in place of his father, Dennis O'Brien, deceased. The son has been associated with his father for years in the business, and should he be appointed will bring to the position the knowledge and experience that it is important the agent should possess.—*Newburgh Journal.*

—An application was made to a judge of the Supreme Court on Thursday for an order requiring John Fleming, now acting overseer of the city poor of Troy, to show cause at an early day why he should not be required to deliver up the books and properties appertaining to the office to Henry Straude, Mayor Kemp's appointee. The decision in this case will probably determine the contest for the offices of high constable and city clerk.

—On Wednesday afternoon an insane man, who gave his name as Timothy Hurley, was arrested and conveyed to the station house in West Troy. He says he is from Boston, where he formerly worked for a Mr. Hall in Federal street, who he says owes him $100,000. Unlike the most of us, he feels very rich. He claims to be worth $1,000,000. He offered Capt. Wood a house and $10,000 if the captain would present him with a revolver and a policeman's uniform. Wood has telegraphed to Boston in order to learn something respecting the unfortunate man.

In a Box.

A certain well-known horse doctor uptown went in his barn a day or two ago to catch some rats. In order to do this with a good chance of success he hid himself in a feed box. This box, however, had a clasp lock and unluckily just as he had settled himself for a quiet time the lid slipped lower down, the clasp slipped over the staple and fastened him in. He shouted until he was hoarse for help, kicked and stamped against the sides of the box until his feet seemed to be raw with blisters. Finally, after he had been confined about half an hour, some one came in the barn and hearing a strange noise opened the box and there found the unlucky horse doctor.—Of course there wasn't many rats killed, but if any one would like to know all about it, just ask the farrier whose office is near the American Hotel, and he will give you an answer that will no doubt do you much good.

Prisoners.

On account of hard times the state prison men refused to give the shoemakers confined in Sing Sing prison pay for extra services. The shoemakers struck and refused to work, when some sixteen were tied up by their thumbs and twenty put in the dark cells. A gentleman from this county who made a visit to that place Wednesday, was somewhat astonished at the light work demanded of the prisoners, and thinks the shoemakers are decidedly foolish. He further says Walworth looks healthy and rugged, and as though he does not suffer very much. Instead of the murderer being a boy, as many would suppose, he is a heavy, strong man. The gentleman thought the women who were imprisoned were the most brazen-faced, bold-looking crew he ever saw; while the men hung their heads when the visitor came in their presence as if ashamed; the women, on the contrary, boldly looked him in the face and actually winked at him.

Canine Suicide.

A valuable dog, owned by Alonzo Dewey, who resides on Pine street, committed a most uncanine act by committing suicide the other day. This dog was tied in the barn, and climbing up the partition, he had managed to crawl through, and when found was hanging by the neck stone dead. It was a most unaccountable freak for a dog, especially a "yaller" dog —and the owner says he wouldn't have taken $50 for the purp.

Tows.

The following were yesterday's uptows from New York:

Two young gentlemen of elegant leisure who reside in the lower portion of the city went to Stamford by the afternoon train on Friday for the purpose of sleighriding; after they arrived there—the sleighing wasn't good enough here, nor the girls sufficiently handsome.

Rev. H. A. Brann.

Dr. Brann, who will lecture in St. Mary's church on Thanksgiving evening, is the author of some popular works, among them "Curious Questions" and "The Reason Why." The Doctor has friends too hereabouts, some in Stony Hollow and others in different parts of the county. Some very flowery eloquence will come from the lips of Dr. Brann. His lecture is immensely popular in New York.

COUNTY.

—On Tuesday last a horse belonging to S. H. Baxter, of Marlborough, was stolen.

—Raffles are numerous at Accord, in consequence of which poultry is roosting high.

—Charles Palmer of Clintondale cleared $112 from a thousand hills of white wax beans, which sold for $5.70 per barrel.

—A dancing school was commenced at the Accord Hotel on Thursday evening, and will continue every two weeks for four months. The school will be under the management of Prof. J. Abrams, assisted by the celebrated banjoist, Wm. Knapp. There was a pleasant party out and the lads and lassies of old Mombocous "tripped the light fantastic" until the wee sma' hours bade them homeward fly.

VICINITY.

—Debt had one foot of snow Monday night.

—Prattsville has sixteen inches of snow.

—A revival is in progress at the Hudson M. E. Church.

—Poughkeepsie buys its chickens for twelve cents a pound.

—Poughkeepsie has had its first upset sleigh for the season.

—Catskill is jolly with jingling sleigh bells.

—Windham farmers ask $4 per barrel for picked winter apples.

—Burton G. Morss is Chairman of the Greene county Supervisors.

—It takes two days, four men and six bullets to kill a 300-pound bear in Windham.

—It is an odd part of the conflict of receiverships in the Midland that each appointee wishes the other had it.

—Two deer were killed and a bear seen in the neighborhood of Honesdale last week.

—A Dominie is a member of the Board of Supervisors of Schoharie county, but he isn't a minister.

—The barn, wagon-house and shed of R. C. Ferguson at Franklin were burned on the 18th. Loss large; insurance $2,300.

—The Poughkeepsie hydrants are being painted green to correspond with prevailing hue down there.

—The Windham Journal man has been making his first trip over the N. Y., K. & S. Railroad.

—Waltz, the Catskill murderer, has his weekly rampage nowadays. He ought to be waltzed around on his ear.

—The lecture of George Esselstyne of Rhinebeck on Rip Van Winkle is spoken of very highly by the Greenbush Gazette.

—The Greenbush Gazette thinks it queer that nine persons called in answer to the advertisement of one pocketbook lost.

—Sullivan county must be a mine for the dominies. The Record publishes ten weddings in one week.

—Bloomingburgh, Sullivan county, is running into decay. It is known as the deserted village.

—The Sullivan Record don't like it. It calls it "the too beautiful snow"—fifteen inches and one month too beautiful.

—A train on the Midland ran into a flock of sheep near Pompton the other morning and killed about thirty of them.

—Three Greenbush Justices, a lawyer and a constable were tumbled out of a sleigh in a heap the other day, and the villagers think law was never so low before.

—The Harmony Mills Company of Cohoes will not charge rent for the houses occupied by their employees until work is again resumed.

—The panic don't seem to scare the Coxsackians. Nearly every other property owner is repainting his house or otherwise improving his property.

—This, from the Windham Journal, is the fowlest piece of newspaper begging we ever heard of: "Who among our dear readers will bring us a Thanksgiving turkey?"

—There are fourteen "colts" in the Dutchess Board of Supervisors, among them George W. Davids of the Poughkeepsie Eagle; and a gay young colt he is.

—Mr. T. Himmerleich, a miller and a highly respected citizen of Youngsville, met with a terrible death on Saturday morning by being caught by a revolving shaft and crushed to death.

—A Dr. Rasciot of Troy has been arrested for being accessory to the death of a little girl named LaFlaur of Cohoes. He is a quack, and gave the child an emetic in a case of convulsions.

—There are some eccentric people in Liberty. One of them hired a horse and wagon of a liveryman, drove away and by and by came back with another rig, having traded while away, without consulting the liveryman about it.

—The Walton Chronicle mentions the circumstance of Walton's patriarch, Mr. Cook St. John, aged *one hundred years and five months*, going to the polls on election day and voting. Mr. St. John has not failed to deposit his ballot at any important election since 1796!

—An arrangement is being introduced on the New York Central & Hudson River Railroad for heating the cars by means of steam pipes which run around the base of the coach and under every seat. This will do away with stoves, so that in case of a smash-up the passengers, instead of being roasted in a burning car, can enjoy the alternative of being scalded to death by steam.

LOCAL INTELLIGENCE.

CITY NOTES.

—High water at Rondout Light House today at 4 P. M. and 3:30 A. M.

—Travelers on Lackawanna street complain that the sidewalk is blocked up by barrels.

—Yesterday 41 canal boats laden with 5,175 tons of coal reached tide water at Eddyville through the Delaware & Hudson canal.

—We are unable to decide which are the most plenty on the market, chickens and turkeys or ladies' new hats.

—There is a good bottom now and all we want is a few inches more snow to make sleighing in the city first rate.

—Rondoubt has raised a company of 130 men for Cuba.—*Albany Journal.* No *doubt* about it.

—John Shultz and Michael Mayer on Mill street are both turning out some very handsome single sleighs, both swell-bodies and Portlands.

—Ice of considerable thickness formed on the creek during Thursday night and the river at and above this point was also skimmed over.

—David Carle lost the robe from his horse uptown on Thursday night. It is supposed to have been stolen, as the joke, if one were intended, is quite a long one.

—The following is a conversation overheard on one of our down town streets on Friday, between two adopted citizens *not* from France: "He's a d—n smart fellah; and all he lacks is —." "Eddication," quoth the other chap, after allowing the first speaker some time to think of what "the d—n smart felah" lacked.

—Our city blacksmiths are very busy just now ironing new sleighs, and the horse-shoers have to work early and late, and then can't sharpen horses' shoes fast enough to comply with the demands. Friday was a bad day for horses not sharp shod, the roads being very slippery, and many horses fell down.

—Those of our fellow citizens who, in bygone years, were initiated in the mysteries of the Order of the Sons of Malta will remember that one of the questions asked them was, "How much will you subscribe toward the acquisition of Cuba?" The question can with propriety be repeated at this time, and all sums subscribed will be thankfully received by Lieut. Henry Weiner, Paymaster of the company of volunteers raised in this city for service in Cuba.

—Mr. Philip Phillips, the Singing Pilgrim, gave some very sweet singing last night at the Rondout M. E. Church. There was more variety than usual, the selections presenting more varied styles of music. His voice is very sweet, with wonderful elasticity. He also gave occasionally a few choice remarks. He has a very pleasant face, especially when he smiles. The choicest pieces of the programme were "Depart from Me," especially in the supplication, and "Sweeping through the Gates." The Ladies' Aid Society netted about $36.

A Mechanical Marvel.

A short time ago we mentioned the fact that George Styles, the watchmaker, had an electric time-piece in one of his show windows. Since that time Mr. Carter, of the firm of Safford & Carter, not to be outdone by any watchmaker in the country, has made a time-piece that astonishes all the people in the place. The folks say it must be run by the powers of witchcraft, for the whole affair is simply a large square piece of plate glass with a peg in the centre on which the two hands are placed. Everything in and about the glass is open to the sight, and though nothing is connected with the hands, they not only keep perfect time, but are loose on the pivot, and if twirled around any number of times will settle back to the right place, even making an allowance for the few seconds in which they have been turning. It is certainly a most ingenious thing, and stamps Mr. Carter as an inventor of no mean ability, as well as a workman of unusual skill.

E. McC. Russell's Death.

The Equitable Life Insurance Co. is hard at work investigating the death of E. McC. Russell. The company has two detectives at work on the case. The most important facts are that but ninety cents were found upon the person of the deceased, and that his body lay upon the West bank of the railroad, when it is known that he was a passenger on the up train. These two facts are considered to be of grave importance, and it is stated that in a few days other important facts will be given, all of which will tend to show that Mr. Russell was murdered.—*Catskill Recorder.*

The Sleightburgh Ferry.

Notwithstanding the fact that the noble steamer Riverside has parted one of its chains —the starboard one, going toward Sleightburgh and the port one, coming toward this city—it is the unanimous conviction of the captain, chief engineer, firemen, and deck hands that the steamer can be safely and as promptly as usual navigated between the two places until the ice is of sufficient thickness to permit pedestrians to cross upon it. We understood the Purser of the vessel had some misgivings about running with the craft in a heavy sea unless that chain was replaced, but upon interviewing him he repelled the insinuation with scorn, avowing his intention to stick to the ship so long as she remained inside the lighthouse, but should she be swept past that he thought it every man's duty to look to his own safety and not sacrifice his life recklessly —a sentiment in which we concur most heartily, for a man so weighted down with specie as the Purser usually is, to say nothing of the rest of his load, doesn't want to get where he can't wade ashore.

John's "Koon."

That coon of John Schnitzler's makes "lots of vun for de poys." On Friday Dittus and Fred Keuer had a discussion about what kind of an animal it was, Dittus asserting that it was a dachs (German woodchuck), but Keuer couldn't hoist that in, for he said dachs weighed from eighty to ninety pounds each. "Oh, go 'long," said Dittus, "I've often caught seven or eight in one hole;" whereupon Constantine Scheick said, 'Dittus, Keuer don't mean dachs weigh so much, but ox." Just then Fritz Jockel, the milk butcher, came in, and seeing the coon for the first time exclaimed, "*Herr gott noch a-mal!* John, did you catch it alive?" That brought down the house and Fritz had to call for "beer."

That *old* coon made a great noise about five o'clock on Friday morning; it had been out somewhere all night and wanted to get in. John said he "didn't care so long as The Freeman chaps didn't hear it," but Mary scolded till John told her her name must be changed to Martha, because "she was troubled about many things," and what was the use of making a row 'cause an old coon stayed out once in a while until five o'clock in the morning, and made a little noise to get in, because he was cold?" Mary had no more to say, only she meant to sell that old coon or give it away, to which John asked, "Is dot so?"

—An application was made to a judge of the Supreme Court on Thursday for an order requiring John Fleming, now acting overseer of the city poor of Troy, to show cause at an early day why he should not be required to deliver up the books and properties appertaining to the office to Henry Straude, Mayor Kemp's appointee. The decision in this case will probably determine the contest for the offices of high constable and city clerk.

—On Wednesday afternoon an insane man, who gave his name as Timothy Hurley, was arrested and conveyed to the station house in West Troy. He says he is from Boston, where he formerly worked for a Mr. Hall in Federal street, who he says owes him $100,000. Unlike the most of us, he feels very rich. He claims to be worth $1,000,000. He offered Capt. Wood a house and $10,000 if the captain would present him with a revolver and a policeman's uniform. Wood has telegraphed to Boston in order to learn something respecting the unfortunate man.

In a Box.

A certain well-known horse doctor uptown went in his barn a day or two ago to catch some rats. In order to do this with a good chance of success he hid himself in a feed box. This box, however, had a clasp lock and unluckily just as he had settled himself for a quiet time the lid slipped lower down, the clasp slipped over the staple and fastened him in. He shouted until he was hoarse for help, kicked and stamped against the sides of the box until his feet seemed to be raw with blisters. Finally, after he had been confined about half an hour, some one came in the barn and hearing a strange noise opened the box and there found the unlucky horse doctor.—Of course there wasn't many rats killed, but if any one would like to know all about it, just ask the farrier whose office is near the American Hotel, and he will give you an answer that will no doubt do you much good.

Prisoners.

On account of hard times the state prison men refused to give the shoemakers confined in Sing Sing prison pay for extra services. The shoemakers struck and refused to work, when some sixteen were tied up by their thumbs and twenty put in the dark cells. A gentleman from this county who made a visit to that place Wednesday, was somewhat astonished at the light work demanded of the prisoners, and thinks the shoemakers are decidedly foolish. He further says Walworth looks healthy and rugged, and as though he does not suffer very much. Instead of the murderer being a boy, as many would suppose, he is a heavy, strong man. The gentleman thought the women who were imprisoned were the most brazen-faced, bold-looking crew he ever saw; while the men hung their heads when the visitor came in their presence as if ashamed; the women, on the contrary, boldly looked him in the face and actually winked at him.

Canine Suicide.

A valuable dog, owned by Alonzo Dewey, who resides on Pine street, committed a most uncanine act by committing suicide the other day. This dog was tied in the barn, and climbing up the partition, he had managed to crawl through, and when found was hanging by the neck stone dead. It was a most unaccountable freak for a dog, especially a "yaller" dog —and the owner says he wouldn't have taken $50 for the purp.

Van Etten, with the two wrecking boats and a force of Delaware & Hudson Canal Company's men, commenced operations on Thursday for raising the canal boat which was sunk at Vassar's wharf in Poughkeepsie during the gale on Monday night last. The boat was laden with one hundred and twenty-five tons of coal consigned to D. C. Foster & Son of the above mentioned city.

Mr. W. W. Hegeman of Poughkeepsie, and late editor of the News, called at The Freeman establishment on Friday afternoon.

Two young gentlemen of elegant leisure who reside in the lower portion of the city went to Stamford by the afternoon train on Friday for the purpose of sleighridin; after they arrived there—the sleighing wasn't good enough here, nor the girls sufficiently handsome.

Dr. Brann, who will lecture in St. Mary's church on Thanksgiving evening, is the author of some popular works, among them "Curious Questions" and "The Reason Why." The Doctor has friends too hereabouts, some in Stony Hollow and others in different parts of the county. Some very flowery eloquence will come from the lips of Dr. Brann. His lecture is immensely popular in New York.

COUNTY.

—On Tuesday last a horse belonging to S. H. Baxter, of Marlborough, was stolen.

—Raffles are numerous at Accord, in consequence of which poultry is roosting high.

—Charles Palmer of Clintondale cleared $112 from a thousand hills of white wax beans, which sold for $5.50 per barrel.

—A dancing school was commenced at the Accord Hotel on Thursday evening, and will continue every two weeks for four months. The school will be under the management of Prof. J. Abrams, assisted by the celebrated banjoist, Wm. Knapp. There was a pleasant party out and the lads and lassies of old Mombboccus "tripped the light fantastic" until the wee sma' hours bade them homeward fly.

VICINITY.

—Delhi had one foot of snow Monday night.

—Prattsville has sixteen inches of snow.

—Burton G. Morss is Chairman of the Greene county Supervisors.

—It takes two days, four men and six bullets to kill a 300-pound bear in Windham.

—It is an odd part of the conflict of receiverships in the Midland that each appointee wishes the other had it.

—Two deer were killed and a bear seen in the neighborhood of Honesdale last week.

—A Dominie is a member of the Board of Supervisors of Schoharie county, but he isn't a minister.

—The barn, wagon-house and shed of R. C. Ferguson at Franklin were burned on the 18th. Loss large; insurance $2,300.

—The Poughkeepsie hydrants are being painted green to correspond with prevailing hue down there.

—The Windham Journal man has been making his first trip over the N. Y., K. & S. Railroad.

—Waltz, the Catskill murderer, has his weekly rampage nowadays. He ought to be waltzed around on his ear.

—The lecture of George Esselstyne of Rhinebeck on Rip Van Winkle is spoken of very highly by the Greenbush Gazette.

—The Greenbush Gazette thinks it queer that nine persons called in answer to the advertisement of one pocketbook lost.

—Sullivan county must be a mine for the dominies. The Record publishes ten weddings in one week.

—Bloomingburgh, Sullivan county, is running into decay. It is known as the deserted village.

—The Sullivan Record don't like it. It calls it "the too beautiful snow"—fifteen inches and one month too beautiful.

—A train on the Midland ran into a flock of sheep near Pompton the other morning and killed about thirty of them.

—Three Greenbush Justices, a lawyer and a constable were tumbled out of a sleigh in a heap the other day, and the villagers think law was never so low before.

—There are fourteen "colts" in the Dutchess Board of Supervisors, among them George W. Davids of the Poughkeepsie Eagle; and a gay young colt he is.

—Mr. T. Himmerleich, a miller and a highly respected citizen of Youngsville, met with a terrible death on Saturday morning by being caught by a revolving shaft and crushed to death.

—A Dr. Rasciot of Troy has been arrested for being accessory to the death of a little girl named LaFlaur of Cohoes. He is a quack, and gave the child an emetic in a case of convulsions.

—There are some eccentric people in Liberty. One of them hired a horse and wagon of a liveryman, drove away and by and by came back with another rig, having traded while away, without consulting the liveryman about it.

—The Walton Chronicle mentions the circumstance of Walton's patriarch, Mr. Cook St. John, aged *one hundred years and five months*, going to the polls on election day and voting. Mr. St. John has not failed to deposit his ballot at any important election since 1796!

—An arrangement is being introduced on the New York Central & Hudson River Railroad for heating the cars by means of steam pipes which run around the base of the coach and under every seat. This will do away with stoves, so that in case of a smash-up the passengers, instead of being roasted in a burning car, can enjoy the alternative of being scalded to death by steam.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

"I use the 'New American Cyclopædia' every day, generally many times a day. I think it the best work of the kind in existence. It is singularly well suited to families. A NEW THING UNDER THE SUN

Sixteen Oil Paintings in a Book!

Never before was such an idea attempted for book-illustration; every one who has seen it pronounced it Superb. Mrs. Harriet Beecher Stowe's latest work,

Woman in Sacred History,

is a series of narrative-sketches, drawn from Scriptural, historical and legendary sources. Illustrated with Sixteen Choice Oil Chromos, after paintings by the most celebrated artists of the world, giving a rich and magnificent variety of oriental costume and beauty. Mrs. Stowe in her charming style has written a book full of interest, and without a dull page in it, which even if not illustrated would sell rapidly; but the

BRILLIANT OIL PICTURES

make it one of the most unique, original, and remarkable books ever offered. The pictures, if published separately, would readily sell for $2 each—or $32, while the entire book, with the sixteen pictures, together with the sumptuous bindings of the volume, can be had for one-fifth of that amount. The book is making a tremendous

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

DISTINGUISHED AMERICANS.

"No. 17 Arlington St., London, England. *Jan.* 6, 1870.

"I thank you for the opportunity of expressing my opinion of the great value of the 'NEW AMERICAN' and 'ANNUAL CYCLOPÆDIA.' I own the work and have it with me here, and am in the habit of consulting it every day to my very great advantage. It is most admirable. J. L. MOTLEY,

"U. S. Minister to the Court of St. James."

"Philadelphia, Nov. 1, 1869.

I consider the New American Cyclopædia, published by D. Appleton & Co., vastly superior for the American reader to any other Cyclopædia now before the public. REV. BISHOP SIMPSON."

"Boston, Oct. 25, 1869.

I own Appletons' Cyclopædia, and use it constantly. It should be in every library, public and private—I would say in every house, within reach of every family. The young should use it.

CHARLES SUMNER."

"I use the 'New American Cyclopædia' every day, generally many times a day. I think it the best work of the kind in existence. It is singularly well suited to families. The children who grow up in a house where there is a copy of it within reach, can hardly escape becoming well-informed persons. I value it very highly, and am glad of this opportunity of testifying my gratitude.

JAMES PARTON."

"Tribune Office, N. Y. City, Oct. 20, 1869.

MY DEAR SIR: I have used the 'New American Cyclopædia' since the first volume came into existence, and deem it the best work of the kind in print. Yours, &c., HORACE GREELEY."

"North Shore, S. I., N. Y., Oct. 19, 1869.

Appletons' Cyclopædia is unquestionably the best popular manual of general reference for an American. GEORGE WILLIAM CURTIS.

"Washington, Nov. 12, 1869.

DEAR SIR: I quite agree with Mr. Curtis, that the 'New American Cyclopædia' is 'the best manual of general reference for an American.' The annual continuations are also of great value.

A NEW THING UNDER THE SUN

Sixteen Oil Paintings in a Book!

Never before was such an idea attempted for book-illustration; every one who has seen it pronounced it superb. Mrs. Harriet Beecher Stowe's latest work,

Woman in Sacred History,

is a series of narrative-sketches, drawn from Scriptural, historical and legendary sources. Illustrated with Sixteen Chromo Oil Cartoons, after paintings by the most celebrated artists of the world, giving a rich and magnificent variety of oriental costume and beauty. Mrs. Stowe in her charming style has written a book full of interest, and without a dull page in it, which even if not illustrated would sell rapidly; but the

BRILLIANT OIL PICTURES

make it one of the most unique, original, and remarkable books ever offered. The pictures, if published separately, would readily sell for $2 each—or $32, while the entire book, with the sixteen pictures, together with the sumptuous bindings of the volume, can be had for one-fifth of that amount. The book is making a tremendous

SENSATION AMONG AGENTS

and salesmen, because it is absolutely new and "has money in it." To get pleasant work and good pay, send for terms, circulars, &c., to J. B. FORD & CO., New York, Boston, Chicago, San Francisco, or Cincinnati. Nov12w4
